

SOUNDS IN CAVE GIVE HOPE

CONFIRM STONE FOR HIGH COURT IN ORATORY TIDE

Senators First Air Some Grievances.

Washington, D. C., Feb. 5.—[Special.]—The nomination of Attorney General Harlan F. Stone as associate justice of the Supreme court was confirmed by the senate today by a vote of 71 to 6, after a debate in open session had continued for nearly six hours. Two Democrats, Heflin of Alabama, and Trammell of Florida; two Republicans, Frazier of North Dakota and Norris of Nebraska, and the two Farmer-Laborites, Johnson and Shipstead of Minnesota, opposed the confirmation.

Senator Norris also announced that if Senator La Follette of Wisconsin had been present he would have voted against confirmation. La Follette is in Florida.

Senator Wheeler (Dem., Mont.), running mate of La Follette last campaign and about whom the fight against Mr. Stone's confirmation centered, was in the senate chamber during the debate but refrained from voting. Senator Walsh (Dem., Mont.), who is counsel for Senator Wheeler, also asked to be excused from voting.

Walsh and Heflin Chief Talkers.
Announcement that the controversy would be held in public served to draw a large crowd and when Senator Walsh began the presentation of his side of the argument the public galleries were filled and most of the seats in the senate chamber occupied. Senator Walsh and Senator Heflin made the principal addresses, the latter confining his attacks almost entirely to the connection of Mr. Stone with the so-called Overby case.

Senator Borah (Rep., Idaho), head of the senate committee which arranged for the hearing, said that in his opinion the case was not a matter of life and death, but a matter of principle. He said that in his opinion congress should take steps to alter or supplement the laws so that a defendant could not be forced to stand trial in a strange community at the will of the attorney general.

Senator Borah was so thoroughly in agreement with this point that he announced he would address the senate at a later day in detail on the legal principles involved and possibly make recommendations for legislative enactment.

Norris Hits Other Appointees.
A touch of the spectacular was given to the proceedings when Senator Norris, in announcing that he would vote against Mr. Stone, attacked a number of the appointments recently made by President Coolidge. He mentioned Mr. Stone, Charles B. Warren, named to succeed Mr. Stone; Mr. Woodlock, nominee for interstate commerce commissioner; Mr. Humphreys, nominee for the federal trade commission.

The people in the last election, said Senator Norris, had shown that they preferred a Vermont farmer to John W. Davis, counsel for Morgan. But they didn't know that instead of getting the lawyer of Morgan in the White House they were to have Morgan represented on the Supreme court bench.

Mrs. Helen Elwood Stokes Tells Story of Life

COMES TODAY TO FACE "LIES OF HUSBAND"

Warning by Judge on Jury Fixing.

BY GENEVIEVE FORBES HERRICK.
On Board Burlington Train, Denver to Chicago, Feb. 5.—[Special.]—Helen Elwood Stokes is on her way to Judge William N. Gemmill's courtroom, where she is to arrive tomorrow morning to make the hardest fight of her life—and she thinks, the easiest. It is a battle to show that W. E. D. Stokes, the New York millionaire husband from whom she has been separated but not divorced, entered into a conspiracy of lies with his associates to declare she had been an immoral woman, and that before her marriage to the New York real estate capitalist she had been an inmate of the notorious Everleigh club of Chicago nearly two decades ago.

A hard fight, the earnestly impassioned woman explains, "because I shall have to combat the most fiendish lies ever plotted by an unscrupulously cruel and malicious man. I mean Mr. Stokes, who will stop at nothing."

"Has Never Done a Wrong Thing."
But an easy contest, and the woman is all the more dramatic because she makes no effort to be. "Because never in all my life have I done a wrong thing. Never have I done one thing which I want to hide. And side by side the hard parts and the easy weave themselves into a contrasting pattern in the cross section of the story which, for several hours this evening, Mrs. Stokes told so frankly."

"Perhaps the hardest thing of all," she admits, "is the very fact that I have to make any denial. In every detail of every moment of my 37 years I can produce proof that makes it not only false but ridiculous to accuse me of the things that Mr. Stokes has accused me of."

"But that doesn't make the situation any easier. It's as if some one were to say that I had murdered a certain man in Chicago on the 26th of May. I would deny it and show proof that I had been in Denver on that day, but it wouldn't be pleasant making the denial, now would it?"

A Story of Insinuations.
Then, slowly, admitting quite frankly that she can't remember the precise dates, Mrs. Helen Elwood Stokes tells the statistics part of her story. Wow! in between these figures and data is the bigger story, the story of her millionaire husband's insinuations, of his accusations, of the anonymous letters that came to the house, of the evil notes that have been sent to her two children, of all that causes her to say: "I don't know what hell is like. But I don't believe it could be any worse than what I've lived through."

As she sits in her drawing room, next her mother, Mrs. Arthur Miller, and opposite her loyal friend, Mrs. Arthur Meeserve, the focal point of the Chicago trial presents an attractive picture. She is pretty. A few years ago, when she was happier, that prettiness, perhaps, was the first thing that you would have noticed. Now, with her hopes and fears all mingled together, yet not bitter, Mrs. Stokes' face shows more than prettiness.

Wants to Live in Peace.
Above the rounded face is a swirl of hair, fluffy auburn hair. Hair like that usually means a white skin. And Mrs. Stokes' skin is white, with here and there the showing through of a freckle. Of this coloring, digressing for a moment, Mrs. Stokes says: "Yes, people think because I am red-headed I ought to be fond of excitement and gay times. They can't understand that a red-headed woman isn't play-acting when she says she wants to live in peace with her babies."

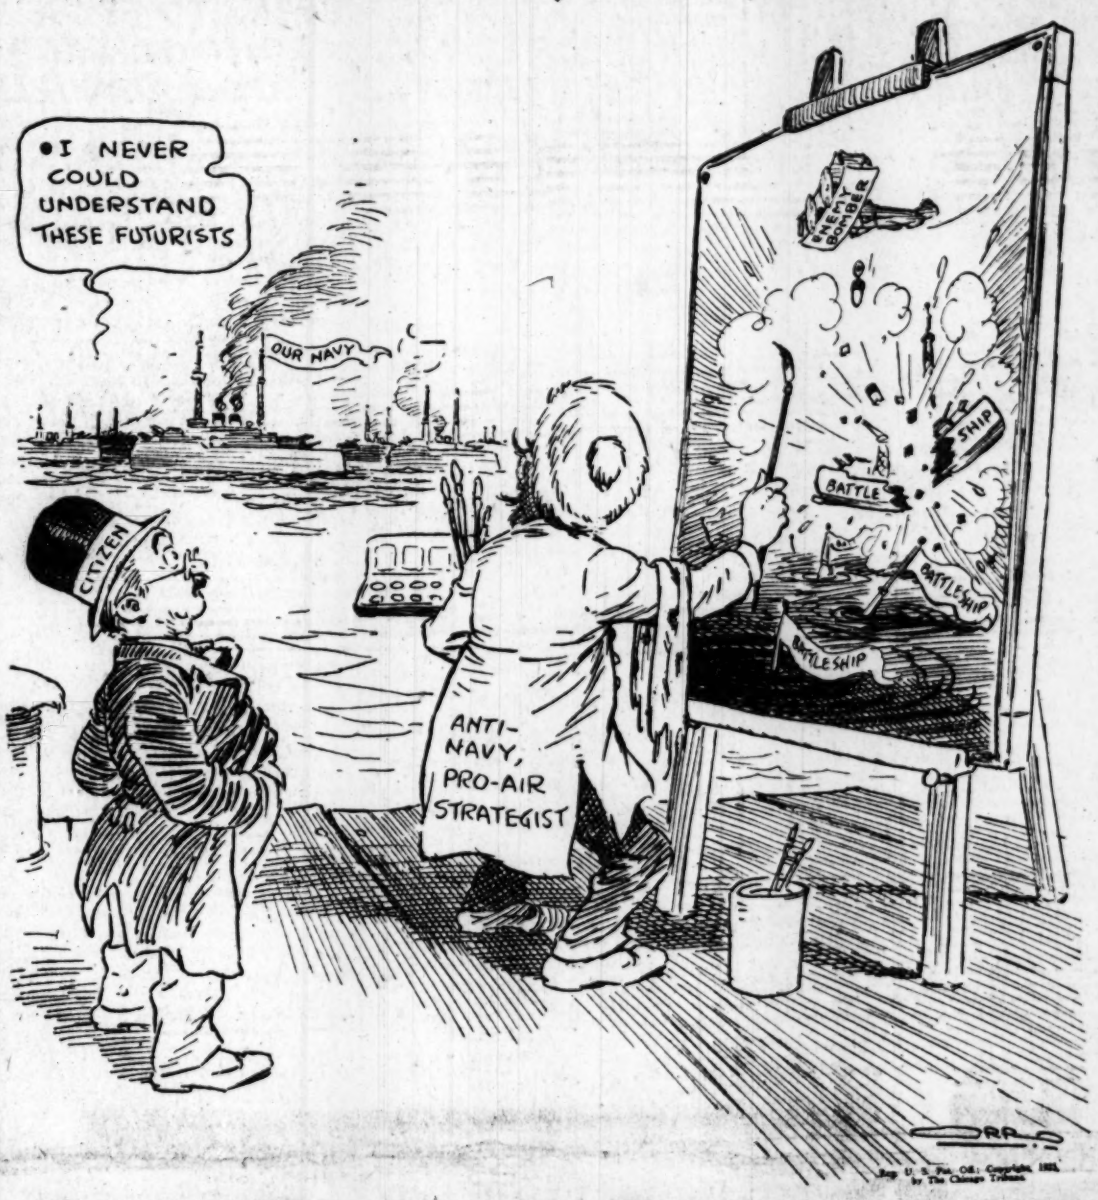

The rather stern silhouette of the plain black silk frock with its arrow-silver band hanging at neck and sleeves, is softened by a silver fox scarf. She wears but few jewels—the plain gold band that W. E. D. Stokes gave her fourteen years ago next Wednesday, a sapphire and platinum ring guarding the wedding ring, a wrist watch and a hammered silver bracelet.

With willingness rather than eagerness, the bride of fourteen bitter years, phrases her autobiography.

Born in Denver 37 years ago, Helen Elwood soon journeyed back to her home.

(Continued on page 4, column 3.)

IT'S STRANGE HOW EASY A BATTLESHIP CAN BE SUNK ON PAPER

GIRL, 15, SEIZED FOR DEMANDING \$100 BY THREATS

A 15 year old girl was arrested last night, charged with sending letters to Charles Reib, 3609 Leland avenue, to scare him into paying \$100. Mr. Reib is sales manager for A. Stein & Co., garment manufacturers.

The girl is Eleanor Kania, 2638 North Harding avenue, a servant employed by the day in an apartment in the same building in which Reib lives.

"I wanted the money for clothes and movies," she said after her arrest.

On Friday and again on Tuesday Mr. Reib received letters demanding that he place \$100 in his mail box or he would be killed. Yesterday he received a third letter which read:

"Dear Sir: Remember this night will be the end for you if you do not put the money in the mail box as ordered. I have waited a long time since Tuesday and I won't give you any more time. I will kill you tonight, tomorrow, or some other day if you don't do as I tell turned the letter over to Sgt. Conrad Schmidt of the Irving Park station. The detective watched the mail box for several hours until he saw the girl take out a decoy package.

A HARD BOILED EGG SHOULD BE SEEN, NOT HEARD.

The desire to convince the world by vocal means that he is a fifteen minute egg has cost Leo Stern, 2 West Ohio street, seven days in a cell, a suit of clothes, and his peace of mind.

Early last Friday he was taken to the Chicago avenue station by Harry Echales, 1319 Harding avenue, a Premier Cab company chauffeur, who maintained Stern owed a taxi bill which had reached \$31.35 and still was mounting.

Among other claims which Stern presented to the desk sergeant as reasons he should not be locked up was that he had staged a \$3,000 holdup in New York.

Stern stayed in a cell until his boast was found to be groundless. Yesterday he appeared in court. Echales failed to appear against him and Stern went home.

He returned immediately, saying some one had stolen his other suit while he was away.

Falling Glass in Loop Knocks Girl Unconscious

A large piece of plate glass was in checking ventilation in an upper floor office of the Tower building, 6 North Michigan avenue, fell yesterday and struck Beatie Sheehan, 23 years old, 605 North LaSalle avenue, knocking her unconscious. Miss Sheehan was walking past the building with a friend, Mrs. Benjamin Jahn. She was taken to her home.

End of World for Hollywood; N. Y. Ducks It

Hollywood, Cal., Feb. 5.—Hollywood was quiet and even indifferent tonight on the eve of what followers of Mr. Margaret W. Rowen believe will be the greatest dramatic spectacle of all time—the end of the world.

Barring the customary pack of keen scented reporters, always eager to follow a colorful story to its lair, residents of this capital of flimdom expressed little curiosity over the predictions. Their indifference was undisturbed by any picturesque activities on the part of the prophetic or her followers, for Mrs. Rowen let it be known several days ago that there would be no donning of white robes or climbing of the hills to greet the crack of doom.

The Official Prediction.
Mrs. Rowen will remain in seclusion in her Hollywood home tomorrow, going about her household duties as usual and awaiting with calmness the event she has predicted in the following words:

"On the twenty-third of July of the year 1919 I was shown that God began the work of judgment upon those who are now living on the earth. This saith the Lord, probation will close Feb. 6, 1925. Jesus will return to the earth Feb. 6, 1925."

With what specific spectacular accompaniments the world will end tomorrow Mrs. Rowen does not attempt to explain, but her followers ventured a few details: Destruction of modern civilization will begin with "a sign in the sky." It may be complete in a few days and it may take years.

Other representatives of the cult quoted biblical passages to support their belief that great hosts of angels will fill the heavens.

New York Gets Late Reprieve.
New York, Feb. 5.—[Special.]—The end of the world will not take place at midnight tomorrow night. It will be only the beginning of the end. Robert Reid of East Patchogue, L. I., who has been preparing himself, his family, and thirteen devoted disciples for an ascension at midnight, made a new interpretation tonight, and it now looks as if the world had another week to go. There's no certainty about it—this business of another week—but that is the way it looked to Reid.

Washington Colony Prepared.
Washington, D. C., Feb. 5.—The little colony here of former members of the Seventh Day Adventist denomination, who are awaiting the end of the world tomorrow, prepared themselves today and tonight with cottage prayer meetings, in the face of repeated statements from the church that their belief is "fanatical."

THE WEATHER

FRIDAY, FEB. 6, 1925.

Sunrise, 6:58 a. m. Sunset, 5:11 p. m. Moon set, 6:10 a. m. Feb. 7, Jupiter is the morning star.

CHICAGO AND VICINITY.
Mostly fair Friday and Saturday, but with some clouds. Wind, w. to w. s. w. at 10 to 15 m. p. m. Temperature moderate. Clouds, mostly south-east to south. Illinois—Mostly fair Friday and Saturday, but with some clouds. Somewhat warmer Friday in north portion.

and a point only ten feet in front of the mouth of the cave which swallowed up Collins was chosen as the most likely spot to mark where he lies far under the surface.

Then down they started. In the bottom of this great natural amphitheater, wooden runways were constructed from the point of excavation to a dumping place, a hundred feet away. Then the diggers spaded down through four or five feet of muck before the hard rock was reached, and the monotonous procession of drawn faces and men and their barrows started for the dump.

Use Dynamite Cautiously.
Dynamite is being used to crack the living rock. The experts are making the charges as light as possible to do the work, but they admit that there is serious danger that the first charge was shock enough to loosen an avalanche of the shale ceiling and blot the spark of life from Floyd Collins if it still existed.

Through the night Dr. Hazlett and his force of assistants kept vigil beside the torchlit pit. Through the murky smoke and splashing in the muck they cared for the exhausted workers as they toppled over, guarding always against the enemies that have sprung up, diphtheria and pneumonia. And they, too, go sleepless, so that if the drills should suddenly pierce an unknown cavern and bring Collins nearer they will be ready.

Dr. Hazlett on the Job.
Dr. Hazlett, after conferring with Mrs. Emmerson Blaine of Chicago, who financed his trip here, tonight started organizing a complete hospital here for aid of workers who may be injured and to be ready for Collins when he is found.

Pulmonology, surgical instruments, bandages, medicines, in fact, all the material for a complete field hospital, even to the ambulance, are being rushed in here from Louisville and other nearby cities.

Adrenalin will be used on Collins, even if life seems to be extinct, Dr. Hazlett asserted. No means will be spared to save the man for whom this dramatic fight has continued for six days and nights.

Early tomorrow morning Joe Wheeler, famous Kentucky bloodhound, dumb hero of a hundred manhunts, will be sent down into Floyd Collins' prison cave with a canteen of water hanging from his neck.

It's just another of the "never-say-die" things that are being tried to sustain any spark of life that may exist in the imprisoned man.

Reason for Bloodhound.
The bloodhound is being sent into the cave on the theory that his lean flanks can pass through any tiny aperture that may be left, and that he will follow a scent he was being taught at midnight.

If by any chance he does get through, surgeons and rescue workers united in saying they do not believe that Collins can get out the water. He has little use of his arms and probably will be too weak to maneuver to take advantage of the dog's ingenuity.

A tragic romance entered the picture today when it became known that in a log cabin far in the hills a woman waits anxiously and prays for Collins' rescue. She is Alma Clark and she and Collins were to have been married this week. She probably will attend his funeral instead.

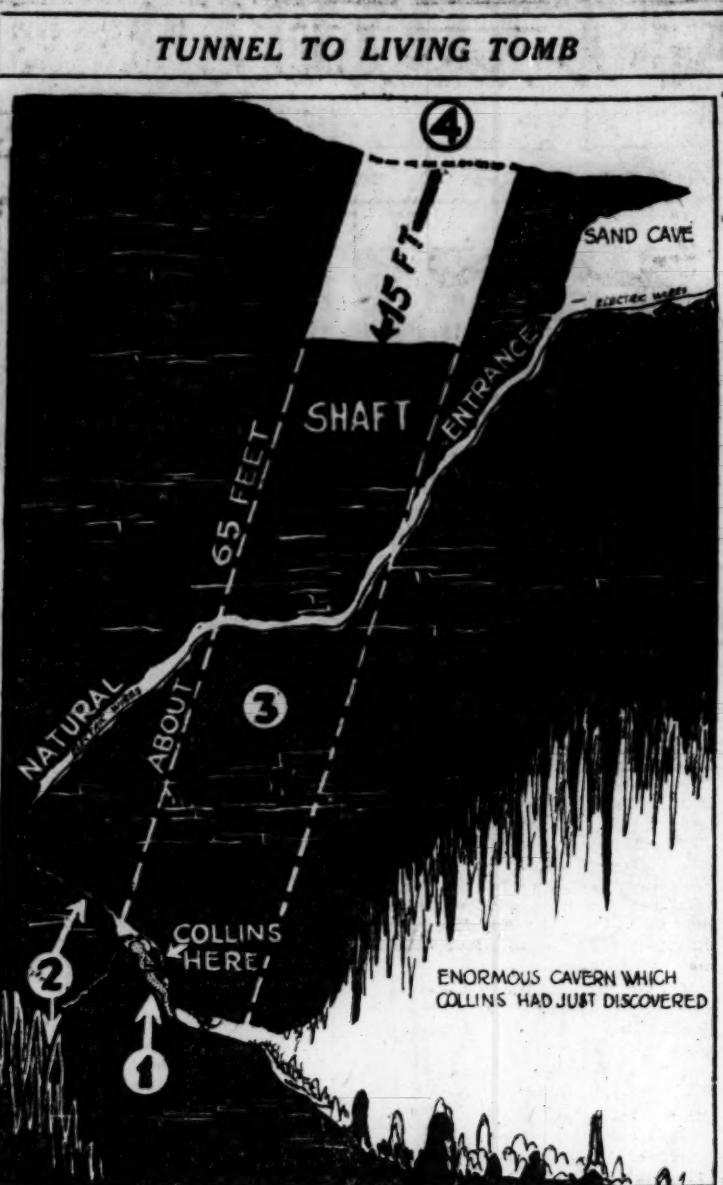

With the arrival of order out of chaos in the relief work again came the rumor that it's all a gigantic publicity fraud to boost the cave to tourists. Collins' name was linked with that of Edward Bates, a shrewd local farmer, as copartners in a scheme to attract capital to the development of the cave as a scenic spectacle by inventing a gigantic publicity hoax. Such things have been done here, it is recalled.

Some Are Skeptical.
The rumor received additional impetus this afternoon with the discovery of another cave entrance 500 feet away from that which Collins entered. Still folk smile at times and relate that it is their belief that Collins has an exit if he wants to take it.

But regardless of how Collins came to get into the cave his situation became serious and probably fatal when the cave-ins blocked his first exit, it is agreed. It is considered improbable that he would stay on in the cave if he knew how to get out the back way.

The population of Cave City was quadrupled today. Hundreds of newspaper reporters, artists, and telegraph operators are here and thousands of morbid curiosity seekers are pouring in on every train and by auto from a dozen states.

To understand this dramatic scene.

1—Collins lies trapped here, sixty-five feet below the surface, with his foot held by a boulder, and all contact with the outside world cut off.

2—The floor of the cave has risen between him and his rescuers, blocking all hope of getting him out by a natural passage. Engineers pronounced the cave too dangerous for more rescue work. The fact that the floor could rise indicates that there is another cave beneath, and that Collins is probably lying on its roof.

3—The rescuers now are drilling a shaft down to where the prisoner lies. It is not known whether he is dead or alive. There is danger of the whole cave collapsing or of workers breaking through into some unknown cave and falling many feet.

4—Aided by the most modern machinery, the rescuers are digging the shaft and have it down fifteen feet.

It is proper to tell of Edmondson county's peculiar economic phenomena.

This is a country which literally wrests its main support from the earth. It is honeycombed with caverns, vast caves in which underground cathedrals with stalactites and stalagmites form weird figures to attract the tourist and his money. Three miles from the point where Floyd Collins dared death for a fortune, or such it is considered in this sparse land, is the famous Mammoth cave.

It is the life dream of boyhood of every man hereabouts to find a cave on his farm. If he does, he needs but set up an office on the highway, and wait for the summer tourists. In the winter he can hunt a little, the women folk will furnish the rest from tilling the thin soil.

Floyd Collins Dream.
That has been Floyd Collins' dream too, and he thought he had discovered it. That is why he took risks underground.

Picture far below the brown hills, a tiny worm of a human, crawling on his stomach in the dark, tiny flashlight to guide him. He pulls with his bare fingers, a little handful of crumbled rock from in front of him and throws it behind. The rock sometimes moves a gold is 3 inches above his head. He's trying to crawl through a crevice from one cavern to another, to prove to investors that with a little digging a second Mammoth cave is at hand.

Sometimes it takes him weeks, sometimes months, to go ten feet.

This was the task that Floyd Collins was on when a huge boulder trapped him last Friday morning. Death lurks at every slippery bend in the darkness. The only problem is to make your discovery and your fortune before the moment when nature shifts a ten-ton boulder half an inch.

Among the scurrying messenger boys, the slow moving mountain folk, the hustling metropolitan newspaper

REPORTER WHO FED COLLINS IS SURE HE'S DEAD

Says 36 Hours Will Bring
Diggers to Body.

Louisville, Ky., Feb. 5.—"A corpse now lies in a relentless trap down in the tricky tunnel where but a few hours ago an undaunted man lived on his faith and hope," says William B. Miller, staff correspondent, in a copy-right story to the Courier-Journal tonight. "Through the hours of agony he kept his eyes on an imaginary ray of light, but the light is dark forever."

"It might be different if Floyd Collins could only know, if he could only see beyond the cave which is his tomb. If he only knew that here at last on the outside is order, that rescue workers are driving forward as a man where before they tugged in opposite directions, that one man's word is final, Floyd Collins might yet nurse the speck of life."

100 Putting Down Shaft.
"Camp fires are twinkling on the hillside tonight, where 100 men are sinking a shaft which, it is hoped, will enable them to bring Collins out in thirty-six hours. Lieut. Gov. H. H. Denhardt is in command, and the work, as a result, is systematic."

"But all hope seems lost. A seal was placed on the passageway today, barring all further rescue parties from getting back to Collins. At noon work on the shaft was started, and with good luck Collins' body will be in sight in fewer than thirty-six hours."

"A chart of the passageway, made early today by Edward Williams of the Standard Sanitary Manufacturing company, Louisville, revealed that Collins is trapped beneath the entrance. But in getting there it was necessary for him to make many turns."

"At noon work on the shaft was started, and with good luck Collins' body will be in sight in fewer than thirty-six hours."

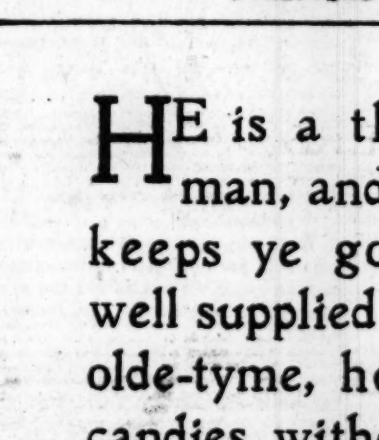

Few Think He's Living.
"Nearly every one is convinced that Collins is dead. Some think he may be alive, but unconscious. But no one I have seen expects to see him come out alive."

"The workers themselves are confident they are digging for a corpse. I have been unable to find any one who has fed Collins since I carried food to him late Tuesday night. I talked with Collins Wednesday and his voice was strong, but I feel that he cannot have endured the days of fasting in his condition."

BLAST WRECK PHOTO PLANT.
Hannover, Ind., Feb. 5.—(Special.)—The plant of the Victor Photo company at Griffith was wrecked today by an explosion. Fred Bennett and Harry McCarty, both of Griffith, were injured. The damage is \$15,000.

WOMAN ON TRIAL MAKES IT ROUGH FOR DIGNITY OF COURT

Mrs. Louise Lagar, 174 Hill street, kept alive the controversy between Chief Justice Harry Olson and Judge John H. Lyle of the Municipal court yesterday. Judge Lyle had started to hear Mrs. Lagar's case when he sat at the South Clark street court, but after Judge Olson had transferred him to the obscurity of the Court of Small Claims, Lyle refused to go ahead with the hearings.

Mrs. Lagar was accused of keeping \$225 which had been entrusted to her. "I want my character cleared," she said between sobs to Judge Olson. "They even put my name in the papers."

"They put mine in, too," Judge Olson observed.

"It's all right for judges to get their names in the papers, but it's no place for a respectable woman," she replied.

Judge Lyle finally agreed to place the case on his calendar, but insisted he would not hear it until he had specific instructions from Judge Olson as to do.

**SEEKS TO LEASE
SCHOOL LAND
FOR AIR FIELD**
Overtures have been made to the board of education to lease the entire section, 640 acres, of school land at 63d street and Cicero avenue for a municipal airport. The proposal comes from E. M. Laird, Chicago airplane manufacturer and pilot of the Aero Club of Illinois.

The term of the lease would be twenty years and a rental of \$110,000 is offered for the period. Mr. Laird agrees to erect buildings for manufacture and repair of aircraft, hangars, and other structures to meet the needs of an ideal airport. In addition he plans to sublease the field to the federal government for \$1 a year, so that it may have priority in times of emergency. The field would be operated in cooperation with civilians, the city, and army air service.

**PRESIDENT GETS
MUSCLE SHOALS
CONFEREES' PLAN**
Washington, D. C., Feb. 5.—Tentative legislation for solution of the Muscle Shoals problem was laid before President Coolidge today by Chairman Keyes and McKenzie of the senate and house conference committees, respectively.

Holding that the problem of disposing of the property eventually will reach the President, the conference chairman deemed it wise to submit for his consideration the tentative agreement worked out on the basis of the Underwood leasing bill.

The conference committee chairman advised the President that it would be advisable, unless unforeseen difficulties arose, to complete the conference agreement on the legislation by the end of the week.

WOMEN'S 8 HOUR BILL DUE AGAIN AT SPRINGFIELD

Springfield, Ill., Feb. 5.—(Special.)—The women's eight hour bill, one of the storm centers of the last legislature, will put in its appearance at Springfield again next week. The bill will be mothered again by Representative Lott Holman O'Neill (Rep., Du Page).

More elastic provisions than those of the 1922 bill will be incorporated in the new measure, Mrs. O'Neill said. Elimination of some of the objectionable features has lessened hostility to the measure considerably, she declared. Graduate nurses are exempt from the provisions of the bill and concessions are made to canning factories during the busy seasons. Telephone companies would be permitted to work operators two hours overtime during emergencies over which the companies have no control, but the extra time must be given back to the girls within seven days.

With this provision Mrs. O'Neill contemplates little opposition from the telephone companies.

The bill to establish an eight hour day for Illinois women employees passed the lower house in 1923 after a spectacular battle, but was strangled to death in the senate industrial affairs committee. Frank O. Hanson (Rep., McLean), who as chairman refused to let the bill out of committee, was defeated in last April's primary by Mrs. Florence Pifer Bohrer of Bloomington, Illinois' first woman senator, and she probably will foster the bill in the senate if it passes the house again.

**Trouble Near in Philippine
Rice Fields; Troops Sent**
MANILA, Feb. 5.—(By Associated Press.)—Gov. Gen. Leonard Wood has ordered a company of constabulary troops to proceed to the province of Nueva Ecija on account of threatened trouble between land owners and tenants. According to reports the trouble was provoked by labor organizations which encourage tenants to storm rice plantations and to take by force their share of the crop before settling debts contracted during the growing season.

**Chicago Diamond Salesman
Robbed of \$50,000 Gems**
Rockford, Ill., Feb. 5.—A salesman for the Marine Fox company of Chicago, diamond importer, was held up and robbed of \$50,000 in stones on a road near Sterling tonight, according to a story he told Charles Johnson, deputy sheriff, it was stated tonight by Sheriff H. E. Hamilton of Morrison, Ill. Hamilton did not know the salesman's name. The man was attacked and robbed while his automobile in which he was driving to Clinton, Ia., became mired in a side road.

FIXES 40 YEARS FOR LIFE OF CAR CERTIFICATES

Committee Acts to Keep Fares Down.

BY OSCAR HEWITT.

The proposed municipal railway system is to be financed on the basis of forty years for the maturity of the securities.

That was the recommendation of the bankers' committee as presented yesterday by Melvin A. Traylor, president of the First National bank, to the council committee on local transportation. It was adopted immediately, a quorum being present for the first time in several days.

Mr. Traylor said that on the basis he suggested it is financially practicable to provide "the best transportation at a reasonable fare," at the same time amply providing for the payment of interest on certificates and the certificates themselves as they fall due. After doing all that, the bankers now figure a margin of safety of about 12 per cent.

MELVIN A. TRAYLOR.

Mr. Traylor said that on the basis he suggested it is financially practicable to provide "the best transportation at a reasonable fare," at the same time amply providing for the payment of interest on certificates and the certificates themselves as they fall due. After doing all that, the bankers now figure a margin of safety of about 12 per cent.

Would Retain Present Fare.

"Taking the income of the surface lines as our starting point," Mr. Traylor said, "\$500,000 more can be spent on extensions and improvements and all of the obligations of the municipal railway system can be met without increasing the present fare. That is on the basis of a certificate maturity of forty years, which we recommend in lieu of thirty years, which we frequently have discussed. A departure from anything with which we are familiar, and we have devoted some time to deciding on the plan which we believe is best. We have determined that forty years is best for the security holders, the car riders, and the city. We deem it inadvisable to put a large sinking fund burden on the income, because of the general desire for extensions and improvements and as low a fare as can be granted for good service. The improvements and a reasonable fare contribute to the welfare of the city as well as to the convenience and comfort of the car riders."

Money Keynote to Service.

"I believe that money is the keynote to the improvements and extensions. That money can be obtained cheaper and the certificates sold more readily if the sinking fund burden is not too heavy on the income. That aids the marketability of the certificates. That assists in getting money. No matter how efficient the management of the lines may be or how good service is given, these income bonds will not be sought if the income is barely sufficient to meet the charges on it."

Our reckoning indicates that the income from the present surface lines is sufficient to permit the purchase of \$500,000 in addition to the cost of the lines."

Mr. Traylor suggested that the cost of the lines to the city be amortized at the rate of 1 per cent a year. The committee decided to make it .075 per cent. By that payment the committee figured the bonds will have a maturity of forty years.

Provides for Subway Rental.

The committee also decided that the railway system shall pay .075 per cent annually as rental on the amount expended from the \$400,000 traction fund for subways. Mr. Traylor and Leonard A. Busby, president of the Chicago City Railway, protested vigorously against that scheme. The city's lawyers insisted that a charge for use of such a subway is necessary. Mr. Traylor told the councilmen three times that he was willing to take a chance on the legality of no charge.

"By collecting a rental," he argued, "the city is collecting interest from the car riders on money which they have supplied. Free use of that subway cannot be the widest stretch of the imagination be construed as an aid to the security holders. One of the big features of this municipal railway scheme is that no one is making a profit out of it. You will borrow money at its cost, but you will pay no profits. Omitting a charge for the subway will not void the certificates."

Believes Charge Is Essential.

Attorneys for the city insisted that a charge was necessary as an extra legal precaution to insure getting the court to hold the certificates valid under the ordinance proposed.

Ad. Wiley Mills (37th) insisted that the street railway system should pay the city as large an interest rate as the railway paid the security holders for cash.

That would mean about 5 per cent. Mr. Traylor said that such a charge is impossible, because no subway rental would pay that rate on the investment. Corporation Counsel Busch read several telegrams showing that

Pope Pius, photographed while in the midst of an address to small children, from the College of St. Joseph in Rome. The photo is unusual in that few action photos of the head of the Roman Catholic church have been taken.

DR. T. W. GOODSPEED GIVES \$5,000 TO MIDWAY U. FUND

Dr. Thomas W. Goodspeed, who retired a number of years ago from the faculty of the University of Chicago, contributed \$5,000 yesterday toward the \$17,500,000 fund which the university hopes to raise this year.

Dr. Goodspeed directed the solicitation of \$400,000 for the university thirty-five years ago to meet John D. Rockefeller's first gift of \$600,000.

Dr. Goodspeed said that the money he used to endow the department of New Testament and Early Christian literature, but left the disposition of the sum to the board. He asked only that the university pay him \$62.50 interest each quarter on his \$5,000, computed at the rate of 5 per cent.

"As I am past 82, I may reasonably hope to relieve the university from this interest charge at no very distant date," he wrote to President Ernest De Witt Burton.

In certain New York subways the companies are obligated to pay about 1 per cent and in Boston the rental was about 1.3 per cent.

"The Boston system went broke," Mr. Traylor commented.

Mr. Mills insisted on Mr. Traylor's telling why 5 per cent could not be paid on money invested in a subway.

Would Mean Excessive Fare.

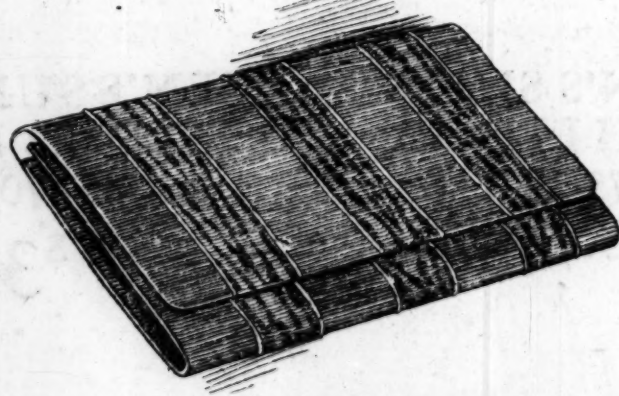

"Our figures indicate that subway construction will cost about \$4,000,000 a mile in Chicago," Mr. Traylor replied, while surface lines will cost about \$200,000 per mile of double track. Five per cent on the surface line mile is \$10,000 a year, while 5 per cent on the subway mile is \$200,000 a year. You cannot collect a fare that will pay such an interest charge."

At the invitation of Chairman Schwartz, former Alderman John A. Richert, for years chairman of the council finance committee, gave his opinion of the ordinance. Mr. Richert was one of the ardent municipal ownership advocates in 1907 with William E. Dever.

Richert said yesterday he is stronger for municipal ownership than ever but is absolutely opposed to pure municipal operation. He said that the pending ordinance is the best solution for every interest concerned.

WOMAN 103 YEARS OLD DIES.

LAWYER LOESCH TO WED FORMER CHICAGO WOMAN

(Picture on back page.)

Friends of Lawrence Loesch, Chicago lawyer, were surprised yesterday at learning he has secured in New York a license to wed Mrs. May Browning Bauscher, a former Chicagoan and now a resident of Cooperstown, N. Y. The bridegroom's age was given as 32 and that of the bride as 61. The wedding ceremony is planned for Saturday.

During her many years' residence in Chicago Mrs. Bauscher, whose husband died in 1909, made her home at the Virginia hotel. Mr. Loesch, who has been well known in Chicago legal circles for many years, resides at 4247 Hazel avenue and is senior member of the firm of Loesch, Scofield, Loesch & Richards, 10 South La Salle street.

Mr. Loesch's first wife, the late Mrs. Lydia T. Richards Loesch, died a year ago. Mr. Loesch came into public prominence as a special prosecutor of primary vote fraud cases in 1908. He has been Chicago counsel for the Pennsylvania railroad since 1918. He is a former president of the Union League club and of the Chicago Bar association.

GIVE FORMER EVANSTON COP YEAR IN JAIL

Leroy C. Christensen, 325 Sherman avenue, Evanston, a former member of the Evanston police force, was sentenced to the Bridgeway for a year by Judge Thomas J. Lynch when he pleaded guilty to contributing to the delinquency of a 14 year old girl.

"I'm only sorry I can't give you more," the judge said as he imposed the maximum sentence.

William Ingraham, colored, also a former Evanston policeman, charged with contributing to the delinquency of two girls from the Mary A. club of Evanston, pleaded not guilty and was granted a jury trial.

MURPHY HERE; DENIES SOLDIER BONUS FORGERY

Asserting that he is going to fight, and professing innocence of alleged forging of names of world war veterans to Illinois state bonus checks, William K. Murphy, an aid of the service recognition board in Springfield, was brought to Chicago last night. He was placed in a cell at the detective bureau.

Murphy was arrested on a warrant sworn out several days ago charging him with having forged the name of Philip J. Clare, a war veteran, to a bonus check for \$300. Murphy denied he had confessed in Springfield. He will be arraigned in South Clark street court today.

ELVEN BULLET MISS HIM.

Eleven shots, none of which hit him, were fired by two gunmen last night at Philip J. Clare, a war veteran, in his laundry at 2251 West 24th street. Police said the gunmen were Hip Sing Tong.

DAY IN WASHINGTON

SENATE.

Spent the day in a discussion in open executive session of the nomination of Attorney General Stone for associate justice of the Supreme court, and then confirmed him, 71 to 6.

Foreign relations committee failed to make any headway in consideration of world court proposal.

HOUSE.

Passed independent offices appropriation bill, after restoring appropriation for tariff commission.

Commenced consideration of District of Columbia appropriation bill.

GIRLS' STORIES MAY COMPLETE FLAT FIRE QUIZ

With the testimony this morning of two girls, said to have fled the scene of the Blackstone avenue apartment fire which cost seven lives, the coroner's inquest is expected to close.

The girls told Coroner Oscar Wolf they knew nothing that would aid the inquiry, but the coroner asked them to appear anyway so the jury may question them. The girls are Libby Anderson of Ashkum, Ill., and Laura Karsgaard, who lives on a farm nearby.

John T. Miller, commissioner of gas and electricity, yesterday urged correction of the law which renders his department powerless to prevent houses to be wired in amateur fashion. He declared the apartment building fire probably was caused by wiring done by the tenants themselves, and that an inspection had revealed several faulty wirings.

The state Supreme court recently nullified the department's power to condemn property on which faulty wiring had been done, Mr. Miller said.

DETECTIVES NOW MUST DESTROY GUNMEN'S GUNS

Police were ordered yesterday to render useless any revolvers or pistols taken from gunmen. The order was given at a conference of seventeen leaders of detective squads. The men were instructed to bend the revolver barrels, spring the cylinder, and jam the triggers. Many confiscated pistols have fallen into the hands of other gunmen, it has been charged.

PARIS NEWSPAPER WARNS

France of U. S.-Jap War

(Chicago Tribune Foreign News Service.)

PARIS, Feb. 5.—The newspaper Sans Fil today warns France that she must prepare to choose between Japan and the United States in a coming Pacific conflict.

"Now with the Russo-Japanese treaty signed it is clear to any one studying the international situation that France is called morally and geographically to take up a position in the Pacific battle which will decide the hegemony of the east," writes Hyacinthe Philouze, editor of the paper and an intimate friend of Premier Herriot.

POISON CAPSULE

NEWEST CLEW IN STUDENTS' DEATH

Druggists Questioned to Find Buyer of Drug.

Columbus, O., Feb. 5.—[By the Associated Press.]—Finding of another capsule containing nothing but poison was the chief reward today in the investigation of the recent sudden deaths of two Ohio State university students and the sudden, violent illness of at least three others.

Questioning of twenty-three students of the sixty-four who have worked in the pharmacy college dispensary from which the medicine was issued, however, failed to suggest a possible clue as to how the poison got into the bottle supposedly containing nothing but capsules of quinine.

Check Poison Sales.

Other outstanding developments of the day were:

Calling in of state pharmacy board to make a check of the sale of the poison in question in drug stores.

Abandonment by university officials of any attempt at an independent investigation.

Discovery of a bottle of the poison, pushed back on a shelf in the dispensary.

Participation by county officials in the recovery of the second capsule came during the afternoon in the course of examination by Dr. Clayton S. Smith of prescriptions turned back by students. The capsule was among those given to David L. Puskin of Canton, who died suddenly Saturday.

Eight Capsules Existed.

The investigation has disclosed the probable existence of at least eight of the capsules in the bottle. One of these is believed to have caused the death of Puskin. A second was found in his room, as described. Another is now believed to have been the cause of the death of Charles H. Huls of Logan, O., the first student to die, and whose death was ascribed originally to tetanus.

A fourth was among those in possession of T. J. McCarthy, who is seriously ill and a fifth is believed to have been the one which made him ill. A sixth probably caused the violent illness Monday of George Thompson, also of Canton, and a seventh the illness of Harold Gillig of Tiffin, O. An eighth, said to have been among those in Gillig's prescription, was reported today to have been found.

An eighth, said to have been among those in Gillig's prescription, was reported today to have been found.

HANDS OF DEATH

The hands of the clock indicate the number of deaths by autos, guns, and moonshine in Cook county since Jan. 1. Yesterday was the thirty-sixth day of 1925.

J. A. MULDOON AND WIFE HURT IN AUTO CRASH

John A. Muldoon, president of the Motor Transportation company, and Mrs. Muldoon were injured early this morning as they were returning in their motor car from their farm at Hartland, Wis., to their home at 4230 Hazel avenue. Their car skidded on Sheridan road near the Kenilworth-Wilmette boundary and collided with the car in which Mr. and Mrs. Charles Strongren of 797 Elm street were riding.

Mr. and Mrs. Muldoon were cut by flying glass and Mrs. Muldoon is suffering from internal injuries and shock.

Holding Walter Hallada, 2210 Powell street, driver of a motor truck which struck and killed Helen Kuehnle, 15 year old high school student, responsible for her death, a coroner's jury yesterday held him to the grand jury on a charge of manslaughter.

Witnesses testified Hallada failed to stop behind a street car from which Miss Kuehnle had alighted at Halsted and 80th streets.

A yellow taxicab, driven by Martin Bridahl, 5509 Augusta street, yesterday struck and probably fatally injured Albert Skamiecinski, 70, of 1332 Holt street, while he was crossing at Washington boulevard and Peoria street. The driver was booked on a charge of assault.

There were no motor fatalities reported in Cook county yesterday, the year's toll remaining at 57.

Students Questioned.

Questioning of students consumed most of the time today of Police Prosecutor John J. Chester Jr. and his assistants. Of the twenty-three students called before the investigators seven were girls.

Prosecutor Chester today requested the cooperation of the state board of pharmacy in an effort to find out if any unduly large quantities of the poison have been dispensed by Columbus drug stores in recent months.

GIRL ATTACKERS GET LONG TERMS IN PENITENTIARY

Richard Fitzgerald, known as Blackie, was sentenced to twenty years in the penitentiary and his friend, Nathan Berman, was given twenty-three years last night, when convicted of kidnaping and raping a girl. Each is 16 years old. Their mothers and sisters screamed and fainted in Judge Jacob Hopkins' courtroom when the verdict was brought in.

"Rid society of these hoodlums," cried Assistant State's Attorney Justin McCarthy in his closing address. "The eyes of the community are upon you men. It is your duty to send these two away for the safety of womanhood in our city."

It took only a short time for the jury to decide that the boys were guilty, but several hours before they were sentenced on the long prison term.

Miss Catherine Lattiere, 29 years old, 5142 Princeton avenue, had testified that on Nov. 26 while riding in an automobile with Thomas Imposino, a neighbor, the two youths had leaped from the runner's seat of the machine. They forced Imposino at the point of a gun to get out of the car.

Then, she said, they robbed her of \$2 while driving to 49th and Morgan streets. Here they stopped, dragged her up a railroad embankment, and attacked her. Berman, she said, was the one who had the revolver, and for that reason his sentence was made more severe.

Attorney James O'Brien for the defense offered to plead guilty if Judge Hopkins would consent to limiting the punishment to five years.

Berman had been sentenced to St. Charles for rape and had escaped. Several charges of robbery and another of rape are pending against both the convicts.

Attorney James O'Brien for the defense offered to plead guilty if Judge Hopkins would consent to limiting the punishment to five years.

Berman had been sentenced to St. Charles for rape and had escaped. Several charges of robbery and another of rape are pending against both the convicts.

SENATE FLAMES IN DEBATE OVER STATE RIGHTS

Highway Aid Bill Brings Sharp Division.

BY ARTHUR SEARS HENNING.

Washington, D. C., Feb. 5.—(Special.)—There is to be a showdown in the senate, possibly tomorrow, on the question of the growing centralization of government at Washington and the gradual curtailment of local self-government and state's rights.

The centralizationists and those expressing the reaction against the tendencies of the last decade or two have clashed over the bill providing for continued federal aid in state highway construction.

The bill, as passed by the house, authorizes federal expenditure of \$75,000,000 for state highway aid in 1926 and also \$75,000,000 for 1927.

Reed Resists Move.

Senator Reed (Rep., Pa.), one of the leaders of the anti-centralizationists, has proposed an amendment reducing the 1926 authorization to \$50,000,000 and that for 1927 to \$50,000,000. The debate from the moment Mr. Reed offered his amendments illuminated the gap separating those who want the government to go on taking over state functions and those who oppose it.

"The purpose of offering these amendments is to start the government toward getting out of this business of raising money for expenses of the states," Senator Reed said. "I do not feel so much compelled by the argument that the larger states of the east are bearing the greater part of this burden. It seems to me necessary that they must bear the greater part of federal expense because they have the greatest wealth."

Not a Proper Expense.

"I offer these amendments because it seems to me that this is not a proper expense, and that the sooner the government gets out of this business of state subsidies the better for all concerned."

"It seems to me that getting the federal government out of this business ought to appeal to every man who has at heart the doctrine of state rights. It seems to me that the very independence of the states is being bought away from them by this method."

"It is only a few days since several officials of Pennsylvania came here to ask the permission of a federal official to improve a road in Pennsylvania. Any system that will lead to such a loss of independence as that seems to me to be unfortunate, and the quicker we get out of it the better it will be for the self reliance of the states, and the better it will be for tax reduction and economy on the part of the federal government."

Fess Wants U. S. Aid.

Senator Fess (Rep., Ohio), a leading exponent of the extension of federal activities, took issue with Mr. Reed.

"I appreciate Senator Reed's position and have some sympathy with the policy he wants to introduce," Mr. Fess said. "I take it the policy means that ultimately in a definite time we shall discontinue federal aid to road building."

"I come from a wealthy state. My state will pay its proportional amount of the additional aid. But I believe that the proper theory of the government is that the nation must be looked on as a unit, and while recognizing the states in their individual sovereignty, that we ought not to build the territorial boundaries so high that a citizen in one section is not interested in what is done in another section."

Chapman Back to New

England for Murder Trial

Hartford, Conn., Feb. 5.—Gerald Chapman, notorious bandit, arrived at the state prison in Wethersfield this afternoon from Atlanta penitentiary in custody of federal officers. Chapman is under indictment in this county for the murder of Policeman James Skelly in New Britain, Conn.

STORY OF HER LIFE IS RELATED BY MRS. STOKES

Talks of Husband's "Fiendish Lies."

(Continued from first page.)

parents' home town, Sycamore, Ill., where her mother took her father, dying with consumption, "home to die." He died when the little girl was less than four years old. Her mother was ill; the doctor ordered the family back to Denver. A few years later Mrs. Elwood married Arthur Miller, realtor, a man of considerable means.

"It's just another lie," and Mrs. Stokes is vehement, "when Mr. Stokes declares I married him because my stepfather was horrid to me. A real father might sometimes justly get cross with his children, but my stepfather never spoke a cross word to me. I could have anything within reason, adored him."

Until she was 13 Helen was ill with Bright's disease and was compelled to study at home with a tutor. Then, she recalls, she went to Miss Wilkins' private school in Denver.

Lonesome; Went Back Home.

"It was about this time," she goes on, "I must have been 14 or 15, that mother was ill, and the nurse thought it would be better for her to be quiet, so they sent me to my grandmother in Sycamore and for three weeks I attended Waterman hall, then located there. At the end of that time I got so lonesome I walked home to grandmother's and begged to be sent back home to Denver."

"Mother sent a ticket; grandmother put me in charge of a friend making the trip west, and I went back to Denver."

"And yet out of that simple episode Mr. Stokes had the poisonous mind to circulate a story that I had been expelled from Waterman hall and had gone down to join the girls at the Everleigh club. At least, sometimes he tells that story; other times he places me there 'later'."

National Park Girls' Picture.

Of a group of pictures of girls taken on a bed, with some elaborately designed wall paper in the background, she has this to say:

"Mr. Stokes stole those pictures out of my album. He tries to say they were taken in a disreputable resort. But he knows as well as I do that they were taken at National Park seminary." And she identifies the girls, two of them Chicagoans, and one married to a prominent Chicago man.

Finishing at school, the young girl went abroad for a year, returning to Denver to make her debut.

"I wonder if Mr. Stokes realizes that I wasn't a fortune-seeking young girl after either money or social prestige?" And she lists a few of her Denver friends.

"The last part of 1908 and the first of 1909," she recalls the time definitely, "mother and I went to New York for me to study music. Mother spent about half the time with me at the Waldorf hotel. The other part I was with friends. Then I returned to Denver, went back to New York in the summer of 1910 and—quite a long pause—and married Mr. Stokes."

Why She Lived with Him.

So much for the story of dates and days and hours. The other story of feelings and reactions and emotions, that story will perhaps never be completely told. Enough, however, shines through any conversation with Mrs. Stokes to stand out indelibly.

"I said I never did a wrong thing."

Well, I did do one wrong thing. That was in staying with Mr. Stokes so long.

Over and over people ask me why I did it. I know. I was young, about 22, when I married. Things were terrible from the beginning, but I kept thinking you're young, try to adjust, and maybe things will get better. I did that and they got worse, but I hated the thought of a divorce. I am an Episcopalian and I wanted to try to make a go of it.

"The thing I knew, I remember, my first baby was coming. I remember I went home to visit and told my stepfather that I couldn't go back; that it was unspeakably terrible. But he said I owed it to my husband to try again. So I went back. The boy, Jimmy, was born. I stayed, although it got worse. Then my second baby was coming. I stayed until Helen Muriel was born.

"Somehow it's easy to stay in a rut of unhappiness."

"Fiendishness" of Mr. Stokes.

Once joggled out of the rut of unhappiness by a battle, Mrs. Stokes says, she first began to realize the full "fiendishness" of Mr. Stokes.

"I knew some of the things about him, but I never dreamed he was as bad as he has turned out to be. They are trying to say now that Mr. Stokes is an old man; that he is a sick man."

"Let them remember that he had gray hairs and that he was sick when he did this plotting."

Of the time she first heard of the Everleigh club, Chicago's luxurious rendezvous for idle ladies, Mrs. Stokes had this to say:

"I heard that Mr. Stokes was saying I was a member of the Everleigh club, so I wrote a friend of the family in Chicago asking what the club was and who the officers and members were. That is how green I was."

"I heard that Mr. Stokes was saying I was a member of the Everleigh club, so I wrote a friend of the family in Chicago asking what the club was and who the officers and members were. That is how green I was."

Jurors called for service in the trial of W. E. D. Stokes, millionaire New York hotel owner, charged with trumping up false evidence to paint his wife an immoral woman, were approached outside the courtroom by an investigator in Stokes' employ, according to information given yesterday by Judge William N. Gemmill.

At the end of yesterday's hearing, during which futile attempts were made by Stokes' counsel and the state's prosecutors to obtain jurors, Judge Gemmill called the attorneys and Ja-

cob Manasse, Stokes' investigator, before the bar.

"I am informed that you were seen talking to prospective jurors," the judge told Manasse. "I warn you if anything like that is proved here you will be heavily punished. Every guard must be taken against jury tampering."

Stokes' investigator was quick to assert his denials, and Stokes' attorney, Charles F. Rathbun, angrily blamed the state's attorney, Milton D. Smith and W. W. Smith, for the accusation. Judge Gemmill shook his head, however, and said that while he knew nothing of what Manasse might have said to the veniremen, and had no direct knowledge that he had approached any, yet the thing had been reported to him and he wanted to deliver an unmistakable warning. The warning included the investigator for the state as well, Judge Gemmill said.

Mrs. Stokes Here Today.

Meanwhile, the stage is to be set in the courtroom this morning for the central figure. That central figure is Mrs. Helen Elwood Stokes of Denver, who successfully defended her name and defeated Stokes' divorce suit in New York.

Though, by the very charges themselves, Mrs. Stokes is the state's principal witness, she probably will not take the stand, it was announced during the day by the state. The law prohibits a wife from testifying against her husband or for him.

But Mrs. Stokes will appear in court to face her husband's charges, and to signify their absurdity. Even of this the defense counsel is afraid, for the jurors were asked if the sight of a pretty woman, perhaps a weeping woman, in the courtroom would affect their judgment. And the jurors had to assert their immunity to womanly charms and tears before they were accepted.

The state's prosecutors, however, contend Mrs. Miller, Mrs. Stokes' mother, can show positively that during the time Stokes charged his wife was in a Chicago resort she was with her in Denver and in other cities.

Questioning of the jurors brought a bit of humor occasionally to the courtroom. One said the trial brought back recollections to him, particularly of the Everleigh club. He was a decorator, and it was he that Stokes' investigator, Manasse, wanted to talk to, the latter said.

"I didn't talk to him until after he was disqualified as a juror and excused," Manasse said.

WARNS OF TAMPERING

Judge Gemmill shook his head, however, and said that while he knew nothing of what Manasse might have said to the veniremen, and had no direct knowledge that he had approached any, yet the thing had been reported to him and he wanted to deliver an unmistakable warning. The warning included the investigator for the state as well, Judge Gemmill said.

Mrs. Stokes Here Today.

MOOR CHIEFTAIN GIVES TRIBUNE TERMS OF PEACE

Spain Must Leave Riff,
Abdel Krim Says.

BY VINCENT SHEEAN.
[Chicago Tribune Foreign News Service.]
TANGIER, Feb. 5.—Sultan Mohammed, known to the outside world as Abdel Krim, renews an undisputed sovereignty over all northern Morocco, from Melilla to Tangier. He has shaken off the rule of Spain. A month's trip from one end of his kingdom to the other, just completed by THE TRIBUNE correspondent, shows the extent of the organization and force of this new kingdom and indicates the serious importance of the power which has arisen in the person of the little lame Moorish lawyer, who now is hailed as the savior and champion of all Islam.

This trip across the Riff and western Morocco, accomplished by mule, horse, and afoot, explodes many cherished European illusions about the Riff, especially the general misconception that the territory is a disorganized tribal feudalism, at war with European civilization.

Dignified and Lame.
Abdel Krim is supposed to be a wild chieftain, leading his fanatical mountain tribesmen to victory with blood-curdling war whoops in the cause of "holy war." As a matter of fact, Abdel Krim is a quite dignified Moorish lawyer, extremely well educated, and decidedly lame in one leg. He never has led his "tribesmen" to battle, and never will do so, since his brother, Prince Mohammed, is an able general, trained in the best European traditions.

Abdel Krim has granted THE TRIBUNE an extensive interview, wherein he outlined his terms of peace and general attitude to all the powers concerned in the Moroccan question. The interview took place at the sultan's home at Aitkama, a Moorish village lying on the slopes of the Riffan foothills less than eight miles from the Bay of Allouema.

"Sultan Mohammed," as Abdel Krim is called by his own subjects, handled the interview with dignity, precision, and dispatch. On the day previous I had requested to submit a list of questions, and when Sidi Mohammed, the sultan's brother-in-law, came for me the answers had been carefully prepared.

Soldiers Well Armed.

After an eight mile ride through an enchanting spring landscape, with valleys and foothills covered with almond blossoms, we arrived at Aitkama. The sultan's green turbaned regulars, belonging to the smallest and best unit of the Riffan army, all equipped with French rifles, ammunition, and hand grenades, which are considered superior to the Spanish, stood at attention as we entered the unpretentious doorway.

In a small room off a courtyard Abdel Krim sat at a table examining a huge pile of papers. This was the first table or chair I had seen for two weeks and indicates the European touch the sultan has applied to all his dealings.

Abdel Krim is a short, dark bearded man, inclined to stoutness and dis-

Spanish Morocco, over which Abdel Krim holds undisputed sway, the rebel chieftain having united all the warlike Moor tribes against the Spaniards. Under the terms of peace offered by the Moors, Spain can keep only the cities of Ceuta and Melilla, to which they must withdraw all Spanish troops.

tinguished chieftain by the direct, penetrating gaze of his dark brown eyes.

No Pan-Islamic Movement.

"A Pan-Islamic movement does not exist," was his categorical answer to the first question. "All this talk about Pan-Islam has as its principal object to enlighten the French and English upon the attitude of the opposition to the Riffan government. We have no relations whatever with any movement in French Morocco, Algeria, Tunis, or Egypt, and we have no intention of trying to establish such relations. Our struggle is exclusively national and our only enemy is Spain—this through Spain's will and not through ours,—as nothing would suit us better than peace with Spain, as with the whole world."

The sultan spoke rapidly and decisively in Arabic—his own choice, as he speaks fluent Spanish and French—and Sidi Mohammed performed the translation into French while Abdel Krim listened attentively for possible mistakes.

"As for peace, it can come whenever Spain wants it to come," he declared. "We desire above all things peace and liberty to go to work—and before all others we wish Spain to be at peace with us and be, if possible, our friend and ally."

The next question submitted concerned the terms of peace Abdel Krim would offer Spain. Abdel Krim outlined them as follows:

"Every Spanish soldier in Morocco, from the Atlantic to the eastern frontier, must be withdrawn to Ceuta, Melilla, or Spain," he declared. "Nothing less than complete surrender of the Spanish protectorate will satisfy us. We demand this in the name of the whole Moroccan nation as the Spanish protectorate has brought and can bring nothing but misery and desolation on our people."

"If Spain will surrender her claims to the so-called protectorate we are willing to make peace on the following terms:

"Independence and national sovereignty of The Riff race clearly recognized and all the territory from the Melilla zone to the zone near the coast be attributed to The Riff. We are bound by sacred promises to the tortured populations of the Angora and Larache countries to liberate them from Spanish rule and we shall do so no matter how long it takes."

Will Fight Protectorate.
But once Spain has surrendered her protectorate we are willing to consent to any arrangement within reason for the future government of the coast zone from Tangier to the French front-

ier. We do not demand sovereignty over these areas, although at present we actually maintain our sovereignty over the area from Tangier to Ceuta.

"We propose peace on a general basis, with all the powers interested in Morocco as participants in the settlement. We shall never consent to a Spanish protectorate over any part of Morocco, because the Spanish rule has proved inefficient, inefficient, and ruinous to our people."

"A Spanish protectorate we shall never admit—never. Spain is entitled to the cities of Ceuta and Melilla, which are practically Spanish now, but the rest of Morocco must come under our sovereignty or be governed by a compromise settlement."

No "Riff Republic."
"When peace is established we propose to continue our present form of government," the sultan continued, reading from questions previously submitted, with marginal notes which he had made.

"That is to say we shall continue to govern by what you call an absolute monarchy, as it has been demonstrated that this is best for our people. Eventually we intend to transfer this government into a constitutional monarchy on the broadest liberal lines, but this will be impossible for at least a generation."

"The name 'Riff Republic' is a gross misnomer. We never had a republic and never contemplated one. The republic came into use to designate small local groups, even smaller than tribes—exactly the same as Spanish juntas."

"The Riff will not recognize the authority of Sultan Mulay Yusef either now or at any time in the future. Sultan Mulay Yusef's sovereignty over Morocco is a fable which all the powers have agreed to believe, but we know that Yusef is a prisoner of the French, and neither can nor will take any action in his own name."

"Our attitude toward France is friendly in the extreme. We have never desired anything but the most

friendly relations with France, and we have no intention of attacking the French in Morocco. To me a war with France would be inconceivable—unless we were attacked. If we are attacked we will defend ourselves, but that is an eventually too remote even to contemplate. It certainly would not be to France's interest to attack us.

Frontier skirmishes can be avoided only by one means—the regular elimination of our frontiers.

Want Real Boundary.
"This, we suggest, should be made one of the conditions of peace when the inevitable peace conference comes. A frontier commission should be established to draw on practical lines a boundary between our country and French Morocco. The present boundary is an imaginary one which never has existed except on maps and in the minds of diplomats. It was drawn in 1904 by the negotiators of the Franco-Spanish agreement."

"We do not recognize that agreement, and we cannot recognize a boundary which passes through the middle of tribes and sometimes through the middle of villages or even houses. A practical and natural frontier, regulated by rivers and mountains, should be established, and then I can guarantee we would never again have to have any trouble with France."

"If Spain wishes peace, she can ask for an armistice and call a conference to establish the terms of peace. If Spain wishes war, we are ready for war for an indefinite number of years. We have enough arms and ammunition now for the next two years."

Disaster for Spain.
"The Spanish Riff, which has just now been completed, has been a greater disaster to Spain than the Oual catastrophe of 1921. This retreat has tripled our fighting strength, for we have gained the allegiance of all western Morocco, not to speak of our 2,000 Spanish prisoners, our many thousands of newly imported rifles and machine guns, and our vast gains in material treasure. Every tribe in western Morocco has joined us."

"The future of our country is unlimited," Abdel Krim concluded. "We have confidence in our industrial capacity and in our ability to distinguish ourselves in peace as in war. We ask the outside world in the name of justice to give us an opportunity. If the world does not give us peace now, we will fight until we have conquered it by our sword and by the will of Allah."

ROUMANIA HOLDS
UP EXPULSION OF
U. S. MISSIONARY

Washington, D. C., Feb. 5.—[By the Associated Press.]—The Roumanian government has reversed its decision concerning the deportation of the Rev. Daniel Burley, American Baptist missionary teacher, who was ordered to leave the country by Feb. 15, and will allow him to continue to reside in Roumania, it was stated in advices received today by the Roumanian legation.

The Roumanian government, it is understood, realized that though it could exercise the acknowledged right of any country to expel any foreigner who might prove undesirable, such action, nevertheless, would be considered as an unfriendly action towards all American welfare workers in Roumania.

MOROCCO CHIEF WEDS DAUGHTER OF REBEL LEADER

Marriage Unites Raisuli
and Abdel Krim.

[Chicago Tribune Foreign News Service.]

TANGIER, Feb. 5.—The marriage of Abdel Krim and Raisuli's youngest daughter, uniting the two powerful Riffan rulers, is the latest development in the internal conflict which began with Raisuli's defiance and ended with Abdel Krim's capture of the holy city of Tazout and the submission of the dying Moroccan religious chieftain.

It is stated that Raisuli himself suggested this means of ending the conflict, after he was made prisoner, and Abdel Krim was quick to accept the alliance as a means of extending his influence into the religious realm. Immediately after Abdel Krim's capture of Sheshuan he sent Raisuli a message demanding his surrender and allegiance, to which Raisuli sent a proud, insulting answer, telling Abdel Krim in native vulgar dialect to "go eat onions," the equivalent to "go to gram."

Abdel Krim's forces immediately advanced, entering Tazout, and engaged in bloody battle, Raisuli's adherents suffering heavy losses. The chieftain's son and nephew, Muley Ali, were among the wounded.

Raisuli, at the mercy of the conqueror, proposed the wedding as a means of continuing his subdued authority. Rumors have reached Tangier that Raisuli since died, but these are not confirmed.

Natives Revolt in Another
Spanish Colony in Africa

CAPE JUBA, Ri de Oro, Spanish Northwest Africa, Feb. 5.—[By the Associated Press.]—The natives in this Spanish territory have risen in rebellion against the authority of Spain and a battery of artillery has been dispatched from Tenerife to quell the uprising.

Rio de Oro is a Spanish colonial possession with an area of about 70,000 square miles and an estimated population of 130,000 in northwestern Africa, opposite the desert of Sahara. It is separated by many hundreds of miles from the Spanish Moroccan protectorate.

Rush On as New Ruby Mine

Is Discovered in Burma

RANGOON, Burma, Feb. 5.—[By Associated Press.]—A new ruby mine yielding wonderful stones of pigeon blood hue is reported to have been opened at Upper Burma in the Mogoke district. A sort of Klonbik rush, involving both natives and foreigners, is under way.

DEFENSE RESTS IN LINCOLN TRIAL; DOCTORS TESTIFY

Jury May Be Given Case
Tomorrow Afternoon.

BY MORROW KRUM.

Geneva, Ill., Feb. 5.—[Special.]—There is a possibility that Warren Lincoln may know by Saturday night whether he is to die for the murder of his wife, Lina, and her brother, Byron Shoup. The trial in Judge William J. Fulton's court is nearing the end.

The defense rested late this afternoon after more than forty witnesses had testified that the lawyer-brother, Dr. H. S. Hulbert, who enclosed the only "corpus delicti" of the crime in a cement block, is and was insane. The state immediately countered with five witnesses who testified that the insane man was sane and able to distinguish between right and wrong.

The state has ten more witnesses who will testify in rebuttal. Among them are three alienists who will probably assert that Lincoln is sane. The ten may all take the stand tomorrow. Arguments will take one day and the case may go to the jury late Saturday afternoon.

Doctors Call Lincoln Insane.

Dr. S. D. Wilgus and Dr. H. S. Hulbert, who testified in the Loebe-Leopold trial, were the star witnesses for the defense. Both asserted Lincoln is insane.

For more than eight hours Dr. Hulbert took Lincoln's mind apart and analyzed it to the jury. He gave measurements of the brain chamber of Lincoln's head and illustrated his talk with X-ray photographs. It is said to be one of the very few cases in which such photographs have been used.

"Lincoln is a hopeless paranoiac," Dr. Hulbert said. "He is a necrosist, a person who finds great pleasure, even distinct thrills, in cutting, burning, and destroying dead bodies. His delusion of infidelity would make it impossible for him to know the difference between right and wrong."

Placed Heads Facing Each Other.

Dr. Wilgus said Lincoln told him he had placed the heads in the cement block in such a manner as to make it possible for the dead man and woman to see one another and repent for their sins.

"He is a paranoiac and insane," said Dr. Wilgus. "I heard him when he was on the witness stand speaking in his own defense. I think he did himself harm while on the stand. He was the worst witness in his own defense I have ever seen. He is completely crazy."

Dr. Wilgus said Lincoln had hoped

DRY ERA PRODUCES MORE CHARGES OF CRUELTY TO CHILDREN

More complaints of cruelty to children, due to drink, were received during 1924 by the Illinois Humane society than at any time during the last four years, since a record has been kept.

The secretary's report at the annual meeting of the society yesterday showed a total of 258 such cases for last year.

John L. Shortall was reflected president of the society and Charles E. Murison was returned for his third year as treasurer of the organization. Directors for three years are as follows: Joseph Adams, J. Ogden Armour, Mrs. Philip D. Armour, Mrs. A. C. Barnes, Mrs. T. B. Blackstone, Charles C. Curtis, George W. Dixon, J. Parker Gowing, Frank H. Hebard, Richard E. Schmidt, and Solomon Sturges.

To establish his innocence by showing the police where the heads could be found. It was just another of the man's twisted ideas, the alienist said, just another indication of his hopeless insanity.

But there are those in the large crowd attending the trial each day who are not so sure that Lincoln is insane, and it is whispered that there are men on the jury who share in that opinion. Public sentiment runs high in this rural community, and though two years have passed since Lincoln killed there is still strong feeling. Many of the country folk believe the man will hang.

FAIL IS FATAL TO WOMAN.
Anna Elliott, 65 years old, 708 S. South Chicago avenue, died at the county hospital yesterday as the result of injuries sustained Jan. 18 when she fell on a slippery sidewalk.

CONFIRM STONE APPOINTMENT TO SUPREME COURT

(Continued from first page.)

his position. He said that he had no thought of attacking the moral character or ability of Mr. Stone, but that he could not escape the conclusion that politics played a part in the moves that had been made to obtain a second indictment against Senator Wheeler in the District of Columbia.

Mr. Stone, Senator Walsh said, had been living in a department "permeated with the atmosphere of Daugherty of Ohio," and he called particular attention to the fact that a number of the Daugherty appointees remained in

the department, and that John T. Pratt, an appointee of Daugherty and the man who presented the evidence against Senator Wheeler in Montana, had been assigned as special prosecutor in the case now being put before the district grand jury.

As to Mr. Stone's recent appearance before the judiciary committee, Mr. Walsh said that in his opinion Mr. Stone had presented a straightforward statement "entirely accurate as far as it went," but not stating all the facts and leaving, as he thought, "a very mistaken impression."

Replies to Stone Statement.

For instance, Senator Walsh said, the statement by Mr. Stone left the impression that whatever delays had occurred in the trial of the case on the indictment found against Senator Wheeler in Montana were attributable to Senator Wheeler. Senator Walsh said his questioning had brought out further correspondence, including a letter from Senator Wheeler to Mr. Stone on May 17, 1924, asking for a speedy trial, the reply by Mr. Stone, and also a communication from the United States Attorney John L. Statter

at Great Falls, Mont. In the latter Slater said that another investigation was being made and probably would take at least thirty days.

"He (Mr. Stone) is told that an investigation of Senator Wheeler is in progress, and that it will not be advisable to try the case against Senator Wheeler until that investigation is completed," said Senator Walsh.

"What does that mean? That means that there was an investigation of Senator Wheeler, of course, before the indictment was found, but they were quite well satisfied that they could not get a conviction against Senator Wheeler upon the testimony which they then had, and they were persecuting another investigation to see whether they could not get enough to land him and they did not want to try him until that investigation was completed."

"The significant part of this matter is that the attorney general, having received this answer from the district attorney in Montana, never communicated to Senator Wheeler upon the subject thereafter."

It could scarcely be disputed, Senator Walsh said, that the Republican

administration had strong influence in a district where a large percentage of the residents were dependent upon administration jobs, and that therefore Senator Wheeler was handicapped by being forced to stand trial here. A further embarrassment and handicap was found in the fact that Senator Wheeler must bring all of his witnesses from Montana and pay their expenses.

Heflin Attacks Ownby Case.

Senator Heflin for more than two hours leveled his oral guns on Mr. Stone for the part he played as counsel for the heirs of the late J. P. Morgan in the Ownby case.

The crowd was entertained and amused by the debate, particularly when Senator Curaway (Dem., Ark.) suggested that if Mr. Stone's conduct in arguing the Ownby case as constitutional made him unfit for the Supreme court, there were seven justices who gave a decision upholding Mr. Stone's contention, who ought to be investigated. Senator Heflin's quick response was that if he were President, he would be ready to accept the resignations of these justices.

GALLIGAN GOES INTO EXILE FOR PEACE OF HERRIN

Signs Agreement Under Pressure at Capital.

BY PARKE BROWN.
Springfield, Ill., Feb. 5.—[Special.]—Sheriff George Galligan, storm center in the Williamson county Klan and anti-klan feud, went back to Marion tonight to prepare for his voluntary exile, which he hopes will bring peace to the turbulent county.

Today he had signed an agreement by which he virtually abdicated his office and agreed to leave his home county indefinitely.

Signed Under Pressure.

The agreement was signed under pressure brought by Gov. Len Small, Attorney General Carlstrom, and Adm. Gen. Black in a series of conferences, the last of which was joined by five Williamson county supervisors, friendly to the Klan and enemies of Galligan. Galligan at first refused to consider resigning, fearing that he would be succeeded by a klanman. He later agreed to turn over his duties to a deputy.

It is the opinion here that the agreement engineered by Gov. Small puts the Herrin situation completely in the hands of the Ku Klux Klan forces, the only understanding on the part of their leaders being that they will cease the activities which have been the cause of much of the bloodshed there.

Hopeful, but Not Confident.

"What do you think of the work done here today?" Galligan was asked. "I am hopeful that it will bring the desired results," he said, "and it was only because of that hope that I sacrificed myself. But I am not any too confident of what will happen."

The sheriff had spent almost three hours with Small yesterday and this morning the five supervisors arrived to present their side of the case. They were Fred Hamilton, A. M. Garrison, Otis Maynard, Grant Cruse, and E. A. Carson.

They were closeted with the three state officials more than two hours. After they had been there an hour, Sheriff Galligan accompanied by Municipal Judge R. R. Fowler of Marion appeared.

The discussion is said to have been brief and at the close of it the agreement was made public.

Deputy Gets Office.

The agreement binds Galligan to turn over the duties of sheriff to a deputy, Randall G. Parki, second, it requires him to wipe out his force of special deputy sheriffs, leaving in power those regular deputies selected by the board of supervisors, a majority of whom are said to be affiliated or allied with the Klan; third, it compels Galligan, without unnecessary delay, to leave Williamson county and to remain away from it until Gov. Small agrees that he may return.

For their part, the supervisors agreed that Galligan's salary will continue during his absence. They promised that steps would be taken to revoke the 300 or 300 gun carrying permits issued in Williamson county by justices of the peace and to cause the

M. GARVEY CRASHES THE TOMBS GATE ON BENCH WARRANT

New York, Feb. 5.—Marcus Garvey, "provisional president of Africa," was arrested by United States marshals at the 125th street station of the New York Central tonight on a bench warrant issued by Federal Judge Augustus N. Hand. Garvey was locked up in the Tombs prison.

The warrant was issued today when Garvey failed to appear before Federal Judge Augustus Hand for sentence in consequence of conviction for using the mails to defraud. Garvey's conviction was upheld recently by the Circuit Court of Appeals. He had been sentenced to serve five years in Atlanta penitentiary and to pay a fine of \$1,000.

holders of the permits to surrender or impound their guns.

That the five supervisors ventured to speak for the Klan was believed indicated by this paragraph:

"It is further agreed that henceforth raids made in pursuance of an effort for law enforcement shall only be made through and by the regular constituted or elected authorities, representing the law in said county."

Galligan says he will go to Cuba.

8,000 Ton Landslide in England Buries Train

[Chicago Tribune Foreign News Service.]
LONDON, Feb. 5.—Landslides are rare occurrences in England, but a serious one took place on the Southern railway line between London and Dover early today. About 8,000 tons of earth slid down a high hill into a narrow cut, burying a freight train then passing. Travelers from the continent are detained a long distance. Traffic will be interrupted for several days.

Lift Out Your Corns ICE-MINT

The New Discovery Ends Foot Troubles Quickly

This new discovery, made from a Japanese product is certainly a wonder. It takes the corns, blisters, and calluses off your feet. It is a wonderful discovery. Just think! Not one bit of pain while applying Ice-Mint or afterwards. It doesn't even irritate the skin.

It imparts such a delightful, soothing, cooling feeling to the feet that you wish to keep it on.

Ice-mint is the real Japanese secret for fine, healthy, little feet. It prevents foot odors and keeps them sweet and comfortable. It is greatly appreciated by women who wear high heel shoes and by men who have to stand on their feet all day.

Just ask in any drug store for a little Ice-mint and give yourself the relief, tired, swollen feet the treat of a lifetime. Costs little and there is nothing better.

Lovely Graceful Scarfs Of Ombre Tinted Chiffons \$5.95

Alight with color as is the vogue in scarfs.

They shade from American Beauty to palest pink, from deep fuchsia to orchid, from jade to lightest green.

Other soft colors to choose in these scarfs. Priced \$5.95 each.

Scarfs of Crepe de Chine at \$2.95

These, too, are in charming colors—scarlet, poppy red, orchid, gray, tan, white. Sketched, \$2.95 each.

First Floor, North.

Frocks of Silk for Girls New Styles in the February Sale \$15 to \$21

This is an excellent time to choose the "dress-up" frock for the schoolgirl of "6 to 16." For styles are those of a new season—and the prices much lower than usual because of the February Sale.

Tub Silk Frocks, \$15 With Smocking

Quaint frocks of tub silk in gold-color and blue with collars, cuffs and vestees of white silk. Sizes 6, 8 and 10 years. Sketched left. \$15.

Silk Frocks, \$18.50 Lace Panels

Lace, too, makes the sleeves. And there's a row of tiny gilt buttons. In tan, Indian orange, green. 13, 15 and 17 years. Center. \$18.50.

Youthful Frocks of Crepe de Chine, \$21

Panels trim the blouse and skirt of the charming frock sketched at the right. Touches of embroidery are further garniture. In green, biscuit-color and deep red. Sizes 12, 14 and 16 years. \$21.

Fourth Floor, East.

Boys' Four-Piece Suits In the New Styles for Spring \$19.75

That these suits are of the newest one notes in the lines of the coat, the blunt-tipped vest, the knickerbockers cut with additional fullness. (Two pairs of knickerbockers with each suit.) Tailored of fine all-wool fabrics in the new colorings. Sizes 8 to 18 years. \$19.75.

Final Reductions

Boys' Winter Suits with Two Pairs of Knickerbockers, 8 to 18 Years, \$13.95.
Overcoats, 11 to 18 Years, \$19.75.
Overcoats, 3 to 10 Years, at \$10.95.
Boys' Mackinaws and Sheepskin-lined Coats, 7 to 18 Years, Priced \$10.95.

Second Floor, East.

The February Sale Brings the First New Styles of the Spring in Silk Frocks for Misses At \$45

A new frock chosen now lends fresh interest to the entire outfit. And when selection may be made from frocks whose fashion detail tells clearly of a new season there is decided advantage in choosing at "sale" prices as low as in this featured group.

The Satin-Crepe Frock at the Right Has a Flaring Circular Flounce

Colorful embroidery in deep pointed scallops attaches the flounce to the slim straight frock. Embroidery, too, trims the sleeves and makes a narrow panel down the front. In Titian and black. \$45.

The long jabot that extends from collar to hem on the frock sketched at the left falls in soft folds. A cream-tinted collar of lace and an unusual ornament completes the interesting detail of this frock of silk faille. In tan, blue, ruby red, and black. \$45.

Fourth Floor, South.

Women's Fine Kidskin Gloves Reduced to \$3.65 Pair

These are the gloves with those little decorative touches upon the cuffs which distinguish them as excellent values at their lowered price.

In Shades of Brown and Gray or Black

Some are finished with frilled cuffs in a lacy perforated pattern. Others have turn-back cuffs trimmed smartly in appliques. The backs are richly embroidered. Specially priced at \$3.65 pair.

First Floor, North.

Bridge Lamps Specially Priced At \$5

The beauty of these lamps at this low pricing immediately tells how notable are the values.

The Bases of Wrought Iron in Old Italian Design

These well-proportioned bases are finished in black trimmed in gold-color, red, blue or green.

The Shades Are Most Artistic

They are in parchment effect, covered with Georgette crepe and with a silk ruching. These lamps, sketched below, priced complete, \$5.

Fifth Floor, North.

"Ask Mr. Foster"—

Whether the plan for a journey is definitely formed or only in the first planning, this service, thoroughly conversant with the ways of places near and far, will furnish itemized itineraries and will compute the actual cost of the journey. Details of arrangement will be taken care of, too.

Ninth Floor, North.

Misses' Three-Piece Suits, \$85 A Frock of Printed Silk and a Long Tailored Coat Complete an Ensemble

How satisfactory is the fashion of designing coat and frock in harmony is apparent in this smart costume.

The coat is of twilled fabric with rows of buttons.

The frock beneath of printed crepe de Chine has panels of pleated silk. The lining of the coat and frock are of the same fabric. In green, blue and tan. Sketched at the right. Priced \$85.

Misses' Spring Coats With Fur, \$65

The collar, cuffs and soft revers of the well-tailored coat sketched at the left are bordered with fabric in two colors. Unusual at \$65.

Fourth Floor, South.

HATS FROM THE Junia Room

The New Styles of Spring—

Charming hats that follow the mode yet always with a delightful air of simplicity particularly suitable to girls and younger women, as those who choose hats here so successfully know.

Priced at \$10 to \$15

Hats of straw and silk. Quaint poke shapes of taffetas. Flowers, ribbons and quills are garnitures much favored. These hats are all made by hand. One is sketched. Priced according to style, \$10 to \$15.

For the Younger Girls Are Smart Hats Of Coating Fabrics, \$5 to \$10

These are not Junia hats. They may be chosen to accompany the new top-coats. Some are embroidered. Some have silk scarfs to match, priced at \$5. These hats are priced according to style, \$5 to \$10.

Fifth Floor, South.

Each Phase of Spring Fashions As It Appears Finds Representation in the Group of Women's Hats, New and Charming At \$10

There's a keen zest in choosing hats from such a collection, kept always fresh and new in interest by constant additions. That the price is moderate means the best sort of economy. For every hat in this group is smart and distinctive.

The Hats Especially Featured at This Time Have Flowers as Favored Garniture In Wreaths or Gay Clusters

The hats themselves are of felt or straw—sometimes in combination. The soft tones of the fabrics are lovely in contrast with the bright shadings of the flowers. A flat wreath is placed on the brim of one. Others have graceful flower garlands.

New Tunic Blouses That Touch the Finger Tips

THE smart blouse now is the tunic, its length designed to meet the finger tips. The Blouse of fine quality crepe de Chine, sketched above, conforms to this requirement, and has, moreover, a round neck, and applique embroidery in a contrasting color. A tie effect is drawn cleverly through slits on one side, emphasizing the long lines of the model. In blue, crabapple, terrapin, and green, \$13.75.

Blouse,

New Dresses Are Attractively Priced at \$37.50

Street, Afternoon and Dinner Types Gaily Introduce a New Season

DRESSES such as these, beautifully made in advanced designs, new colors and combinations, and of exceptionally fine materials, are decidedly unusual at this moderate price.

Picturing Four of the Many Types

The Ensemble Costume is admirably represented in the model pictured combining plain and printed crepe in the frock with plain coat—among the combinations are black with black and white, tan or red; white with rose or jade. Another ensemble effect is the long-sleeved Dress with its printed underslip showing at the neck and beneath the slit panels of the plain crepe overdress.

The afternoon Dress of flat crepe has two new features—the finely plaited apron front, the narrow scarf. It comes in blonde, Titian, copen, Indian red, navy, black and white. The Frock of crepe satin, cocoa, red, black, has a shirred apron effect and an all-over embroidered panel front.

Women's Moderately Priced Dresses,
Sixth Floor, South, Wabash

TO the resourceful shopper, February has become one of the most fascinating months of the entire year. In addition to its many sales of extreme importance, its timely clearances, there's a springlike freshness of design in the apparel that transforms February from a between-season month into a radiant herald of the new.

For Sports the Mode Is a Bright One

THE brighter the better is the dictum for the early spring Sports Dresses, and the great preference is for kashmere fabrics, comfortably simple but smartly trimmed. Every week brings some new and clever variation of the popular styles—the strap skirt, the tunic dress, skirt designs from Paris.

Of many models two are sketched. At right, a two-piece Dress of kashmere, trimmed with buttons and contrasting material. In rouge; pervanche with natural; tan with cocoa; natural with pervanche, rouge or almond; white with pervanche or lobster, \$32.50. At the left, a one-piece Dress of kashmere, with contrasting pebble crepe and buttons. In powder blue with copen; natural with mastic, pervanche, rouge, almond and geranium. \$42.50.

Women's and Misses' Sports Dresses,
Sixth Floor, South, State

Misses' Spring Apparel in Advance of Spring

In Frocks—the Jabot, Tucks, Plaits and Flares

THE jabot is one of the newer details this season, appearing on many of the smart Frocks modeled after Paris. In the one below, of frost crepe, the black and white motif of the jabot is carried out in the cuffs as well. In black and white, Hollywood or French blue with beige, aquamarine with flesh. Sketched at right, below. \$57.50.

The importance of tucks is shown on the other simple Frock, crepe de Chine, in green, rust, blonde, Venetian rose, blue, white, black. \$37.50.

Misses' Frocks, Sixth Floor, North, State

In Coats—Small Collars And Flared Fur Border

IN the model sketched you will find several of the season's new features admirably combined: the collar, small, of self material, finished with slender streamers to make a scarf effect; the fitted shoulder, the simple sleeve and the bottom band of fur, accenting the swing of the flare.

Of fawnskin, in tiger eye, cicada, nectarine, golden oak, trimmed with natural kit fox fur. \$87.50. It is one of many new Coats now coming into the Section. All the smart shades, and the finest workmanship.

Misses' Coats, Sixth Floor, Middle, Wabash

In Suits—the Ensemble Prevails Unmistakably

AMONG its many variations are the two sketched here—at right, of charmeen, with full flare coat bordered with fluted rosettes, and collar wearable high or low; the frock, a straight model of silk, embroidered in self color. In waffle, navy, carnelian, \$135.

The second, an excellent value, of charmeen, features the long straight coat and frock of printed crepe, matching the lining of the coat. In carnelian, waffle, and navy, \$87.50.

Misses' Suits, Sixth Floor, Middle, Wabash

Princess Slips of Radium and Tricolette Are Low in Price

SKETCHED above are three models in Princess Slips, which combine daintiness of trimming with exceptionally low prices. At the right a Slip of radium silk, trimmed at the bottom with three pinked ruffles, the center one of contrasting color, \$3.95. In the newest street shades.

In the center a Slip of same material, with an inverted plait for comfort, finished with two tiny tucks and a bias fold of self material. \$5.75. At the left a Slip of tricolette, the scalloped bottom embroidered in contrasting colors. \$5. Tailored models in flesh and white radium silk at \$5; handmade crepe de Chine Slip at \$7.75.

Slips, Fifth Floor, South, State

NATIONALISTS OF FRANCE LAUNCH ANTI-DEBT DRIVE

To Broadcast Marin Talk Denouncing U. S. Claim.

BY HENRY WALES.

Chicago Tribune Foreign News Service, (Copyright, 1925, By The Chicago Tribune.) PARIS, Feb. 5.—The Nationalist committee today started a drive to raise funds for propaganda to convince the French people and the world at large why France should not pay her war debts.

Following the demand of the Nationalist bloc in the chamber of deputies, that Louis Marin's speech of last week, declaring it "an inquiry to ask France to repay the United States," be placed throughout France, the nationalist committee in tonight's Nationalist newspapers announces the opening of subscription lists for donations to cover the cost of M. Marin's speech in pamphlet form.

The demand of the Nationalist bloc in the chamber of deputies, that Louis Marin's speech of last week, declaring it "an inquiry to ask France to repay the United States," be placed throughout France, the nationalist committee in tonight's Nationalist newspapers announces the opening of subscription lists for donations to cover the cost of M. Marin's speech in pamphlet form.

Says U. S. Will Cut Debt. Willis Booth, president of the international chamber of commerce, states that the United States is willing to reduce materially the amount of the French debt and is merely waiting a concrete offer from Paris. He says the funding committee is ready to submit to congress any reasonable offer from France and that both the senate and the house will certainly accept whatever the commission indorses.

The reduction of the French debt to America may approximate the reduction of France's claims for German reparations—more than two-thirds—he intimates.

Study U. S. Attitude.

European diplomats and politicians are watching the senate debate over America's participation in the financial agreement closely, and Senator Johnson's speech attacking the signing of the convention is creating considerable interest.

Despite reservations now made by Washington or the interpretations American public officials may put on the administration's attitude, it is considered here that the United States definitely assumed a certain responsibility and participation—exactly \$600,000,000 worth, to put it concretely—for the collection of reparations under the Dawes plan when Ambassadors Kellogg and Herrick and Col. James A. Lynch recommended for the payment of the United States army costs and \$4 per cent interest annually under the Dawes plan.

ASKS CORONER TO CALL NURSE, SHEPHERDS, TOO

Olson Seeks Unfiled McClintock Will.

Subpoenas for William D. Shepherd, his wife, Mrs. Julie Shepherd, foster parents of William Nelson McClintock, and for Miss Estelle Gehling, the nurse who claims Shepherd indulged in a seven year affair with her, were asked by Chief Justice Harry Olson of Coroner Oscar Wolf yesterday.

The chief justice told the coroner that he wished all three to be summoned to the inquest into McClintock's death, which is scheduled to reconvene Feb. 19.

Also Calls for Papers.

Not only will Shepherd and his wife be summoned as individuals, if the subpoenas are issued, but they also will be asked to bring with them the records of the Liberty Silver company, of which Shepherd is said to be president; all correspondence between Shepherd and stockholders of the company, and

a will said to be in their possession made by Mrs. Emma McClintock, the dead boy's mother, previous to her death and testament which actually was filed for probate.

Coroner to Decide Today.

Coroner Wolf took up the advisability of issuing these subpoenas with Assistant State's Attorney Harry Menzies, and will announce his decision today.

Chief Justice Olson, who has headed the inquiry since its beginning and who gained the confidence of the inquest, is said to attach great importance to the alleged will left by Mrs. McClintock when she died sixteen years ago.

Like that left by young McClintock, the mother's will which never was filed, is said to have left the fortune to the Shepherd's. According to Judge Olson's belief, it was said, this will was superseded by the one made during her last illness, which left everything in trust for her son Billy.

The Liberty Silver company, it was said, is a mining company headed by Shepherd, and with its field of operations in Arizona. Shepherd, it is alleged, gave Miss Gehling, the nurse, stock of a face value of \$25,000 in this company. That was during the time, the nurse claims, when he was writing a letter a day to her.

CHICAGO TO GET 4,500 CUBIC FEET FOR CANAL'S USE

Weeks Concedes That Trustees Say.

Officials of the drainage district returned from Washington, D. C., yesterday, confident the war department will grant a permit for the withdrawal of 4,500 cubic feet of water per second from Lake Michigan for sewage disposal.

While that would be short of the 10,000 cubic feet asked, Edward J. Kelly, chief engineer of the board, said that was ample to protect the health of the 2,000,000 people in the district.

"We are satisfied that Secretary of War Weeks and Maj. Gen. Harry Taylor, chief of the army engineers, will do nothing to jeopardize Chicago's health," President Lawrence F. King said.

"In fact," he added, "that is the message that Secretary Weeks asked me to deliver to the people of Chicago."

The trustees who made the trip returned to be in the best of spirits and were unanimous in declaring that their reception by the war department was entirely satisfactory. They all agreed that their cause was more favorably received than when they were there a year ago.

Chief of Engineers Here.

Gen. Taylor returned to Chicago with the drainage officials and will spend some time here in conference with them and Maj. Rufus W. Putnam, United States district engineer.

Engineer Kelly said great weight seems to have been given to the report of the twenty-eight nationally known engineers, who unanimously recommended a 10,000 cubic foot flow as absolutely essential to efficient operation of the drainage and the protection of health.

Mr. Kelly was confident that the flow which Washington will allow will not fall below the 8,500 mark. He pointed out that last year the district used a trifle less than that amount for sewage disposal, but that in addition the city took 1,500 cubic feet of water for drinking purposes. All of the water withdrawn from the lake was measured at Lockport. In reality, therefore, Mr. Kelly said, we are asking for only 8,500 cubic feet, measured at the mouth of the river.

Holds Pledge Unnecessary.

Secretary of War Weeks declined to accept the \$1,000,000 certified check offered to the war department as a pledge of the sanitary district's good faith for construction of compensating works to maintain lake levels. Secretary Weeks handed it back to President King with the remark: "Let it bear interest until we decide to accept it."

All of the military district trustees, together with Engineer Kelly and George W. Barrett, official counsel, plan to attend the Washington hearing, when the war department formally will act on Chicago's plea. They will return to Washington in about ten days.

POPULAR SONGS ARE TO BE PUT INTO LATIN BY N. Y. PROFESSOR

"Sequi elias Hirundiniae ad Domitium" may achieve the popularity of its overworked English sister, "Follow the Swallow Back Home," if the latest venture of Dr. Roy C. Flickinger, former dean of the College of Liberal Arts of Northwestern university, is successful.

"It is highly desirable that there be no reaction in the tendency to use Latin as a living tongue," says the educator, so he has issued a new book of popular songs, the words in Latin with musical notations. He hopes that this Latin song book will be used throughout the world.

"The Star Spangled Banner" appears in the book in Latin dress, as does "America," "Prairie Flowers," the familiar round, "Brother John," entitled "Frater Johannes," and many others.

Written about 650 B. C., is translated into Latin and set to the tune of "Columbia, the Gem of the Ocean." Religious songs are included in the volume.

CHILD LABOR ACT IS REJECTED BY INDIANA SENATE

Indianapolis, Ind., Feb. 5.—The senate of the Indiana legislature today refused to ratify the proposed child labor amendment to the federal constitution by a vote of 32 to 16. The amendment has not been submitted to the house.

CAPE COD CANAL BILL MAY SPEED LAKES-GULF ACT

Washington, D. C., Feb. 5.—Proponents of the great lakes to gulf waterway, which involves permission of the Chicago sanitary district to withdraw about 10,000 cubic feet of water a second from Lake Michigan, today centered their efforts to get enabling legislation at this session of congress upon a rider to the Cape Cod canal bill.

Senator McKellar (Dem., Tenn.), author of the enabling amendment to the Cape Cod bill, which has been given preferred status in the legislative program of the Republican steering committee, declared he expected to enlist the support of senators from other Mississippi valley states.

Only One Senator Dissents.

The project has the approval of the committee, Senator Reed (Rep., Pa.) being the only member dissenting from the view that withdrawal of 10,000 a second foot into the Chicago drainage canal was necessary to make it an effective link in the proposed nine foot channel to the gulf.

The majority of the committee, however, held, in a report submitted by Senator McCormick (Rep., Ill.), that the objections raised by other lake cities and by shipping interests that such diversion would damage navigation, should not be allowed to interfere with the requirements of the channel.

Benefits of Channel.

The latter project, it was asserted, will open a new and cheap trade route through the center of the nation, and, although the diversion might affect the level of the great lakes, this could be offset by "construction of regulating, controlling, or compensating works at the lake outlets."

The report estimated that the nine foot waterway could be completed for \$5,000,000 and maintained at an annual expense of \$162,550, "provided there is an ample flow of water from Lake Michigan." Diversion of 10,000 feet a second at Chicago, it said, would increase by one-third the "dry weather flow" of the Mississippi river at Cairo, and would thus insure year around operation over that section.

ROBBED IN HIS STORE.

Albert Hamilton was held up in the Atlantic and Pacific tea store at 4704 Kenmore avenue of which he is manager and robbed of \$80 yesterday.

fore with the requirements of the channel.

For Rent 2,400 Square Feet Attractive Office Space

We have 2,400 sq. ft. of wonderful space to sub-let. Best section of Chicago Loop. New and modern in every way. Unusual air and light. High-class tenants. Unexcelled service. Particularly suitable to commercial artists, publication representatives, etc.

This new space will be ready for occupancy March first. Present plan of partitions and other arrangements may be modified if action is taken by February 12th.

This is a Very Unusual Value

For further information address Y M 112, Tribune.

2,000,000 families prefer Postum - they save health and money

A delicious drink, made of roasted whole wheat and bran, prepared instantly in the cup

BOILING WATER—Instant Postum in the cup—cream and sugar—and you have, steaming hot before you, the favorite mealtime drink in 2,000,000 American homes!

Whole wheat and bran—life-giving grain—skillfully blended and roasted in the form of a fine powder, easy to dissolve. Place a teaspoonful in a cup, and pour boiling water over it, watching the deep, warm color rise to the surface as you stir. Now just a little sugar—most people think a teaspoonful is enough—then add the cream, stirring it in until the drink has a rich golden tone.

Now taste it! Sense the full, delicious flavor of the grain! Judge it for itself—not as an imitation of any other drink, but as a wonderful drink in its own right.

Consider! The usual cup of coffee contains from 1 1/2 to 3 grains of a drug, caffeine—which is a full medicinal dose of this drug! Caffeine is a recognized cause of nervousness, sleeplessness, headache and indigestion—as well as more serious ailments. Can you afford to take medicinal doses of this drug into your system, meal after meal?

Some of the effects are reflected in the United States Life Tables for 1920, which show that the average American begins to lose health and vigor at the age of 31. It is time to check up!

Postum has everything which an appetizing mealtime drink should have—without a trace of any drug. And it costs much less per cup! We want you to test it for thirty days. We will give you, free, your first week's supply for this thirty-day test—or if you wish to begin today, you can get Postum at your grocer's.

Fill out the coupon for the week's free supply, indicating whether you want Instant Postum or Postum Cereal (the kind you boil). We will also have Carrie Blanchard, famous food demonstrator, send her own directions for preparing Postum in the most delicious way. Mail the coupon now!

Scholle's Semi-Annual Sale of Good Furniture

Solid Walnut Spanish Renaissance Dining Room Group, Chairs Upholstered in Imported Tapestry and Mohair Combination with Fringe.

Group of Table, 5 Chairs and 1 Arm Chair \$476.00
Sideboard 138.00
Cabinet 124.00
Serving Table 84.00

YOU'LL find one very interesting thing in furniture; that is, you would find it, if you knew how to look for it. There are manufacturers who "copy" designs originated by others; a beautiful table or chair, maybe; or dining room or bedroom sets.

The object of making the copy is to make it cheaper; the design can be perfectly reproduced. You see the copy; it looks good; and it's lower priced, not because the appearance isn't right, but because the material and making is inferior. It is a form of deception; maybe a mild one. You can't really tell much about it anyway; and if you're satisfied, why worry.

So far as we are concerned, we have only one standard—Scholle-quality. We mean to keep that standard inviolate. We sometimes have a customer who says: "I saw the same thing at ———'s at a lower price." That might be true; we think it seldom is true. But the whole point about it really turns on the words, "the same thing." Maybe it's just a copy.

There's always one thing that nobody can excel us on: Our guaranty of satisfaction or money back. That seems to us to cover all variations of price or quality; it meets all comparisons.

The time is very opportune in this sale of ours for furniture-buyers who want the best.

Glance Over the Following List:

ZINOVIEFF JOINS RUSSIANS ASKING U. S. RECOGNITION

Holds Debts to America
Will Not Interfere.

MOSCOW, Feb. 5.—[By Associated Press.]—American recognition continues to be the favorite theme of Soviet government orators, and there is apparently a distinct effort to court Washington's friendship and sympathy. All the bitter attacks against the United States have ceased since the announcement of Secretary of State Hughes' resignation and on every hand the olive branch is extended.

Are Many Obstacles.

Government officials, however, recognize there are many obstacles in the path of full recognition. In the opinion of G. S. Zinovieff, president of the third international, the question of debts will not enter seriously into the negotiations between the two countries. In a recent address M. Zinovieff said he believed the American government would attach greater importance to concessions and the cessation of propaganda.

"Owe Little to U. S."

"We owe very little to America compared to what we owe to France, therefore the question of debts will not play an important part in the negotiations with the United States, because that country has plenty of gold," M. Zinovieff reasoned.

Alluding to French recognition, M. Zinovieff said the franc had fallen so low that the French were now willing to accept payment of Russia's debt at the present value of the franc, which would reduce the obligation to six times less than the original sum.

HE CONFESSES HIS CONFESSION ON O'BANION IS HOAX

Under questioning of Chicago police and assistants of State's Attorney Crowe yesterday, George Veenstra of Lansing, Ill., admitted his confession that he had participated in the killing of Dean O'Banion, gangster-florist, was a fabrication. Veenstra said he posed as O'Banion's slayer and surrendered to Harvey, Ill., authorities as a means of winning back the favor of his young wife, with whom he had quarreled.

Last night Veenstra was locked in a cell at the county jail. Today he is to be examined for his sanity by Dr. H. Douglas Singer, psychiatrist.

"O, phaw," finally blurted out Veenstra to Assistant State's Attorney John Sbarbaro. "Don't fret with me any more. You're wasting your time. I didn't kill that fellow. I never saw him in my life."

All day long Veenstra, who is 23 years old, had insisted that he was one of the three slayers who escaped after shooting O'Banion to death in the gang leader's florist shop at 723 Rush street.

Veenstra's wife, a pretty 18 year old girl, merely smiled cryptically when told the purpose of her husband's hoax.

"Funny way he had of making up," she said.

Nevada Senate Demands Revision of the Dry 18th

Carson City, Nev., Feb. 5.—A resolution asking congress to call a constitutional convention to consider a modification of the prohibition amendment was adopted unanimously by the Nevada state senate today.

Mineral Oil Users Try This!

The Scientific Triumph of Milk of Magnesia and Pure Mineral Oil Combined

Pure mineral oil is certainly the finest intestinal lubricant. But pure mineral oil alone cannot remove the deep-seated causes of intestinal poison and acid (sour) stomach.

Science has now discovered the ideal combination of lubricant and antacid—Mineral Oil and Milk of Magnesia—Haley's M-O.

The sweet, soothing milk of magnesia in Haley's M-O effectively neutralizes and counteracts the acids that cause heartburn, gas, belching and black spots dancing before the eyes. It goes straight and deep to the lower bowel, eliminating the poison. Then the pure mineral oil helps Nature carry them off.

Get a bottle of Haley's M-O today and discover for yourself the extra value of this perfect emulsion. Pleasing to both young and old like it. Your druggist most likely has Haley's M-O. If he hasn't we will supply it by mail postpaid on receipt of price. Large family size, \$1.00. The Haley M-O Company, Indianapolis, Ind.

Your Meals

If Food Distresses Due to Indigestion
Stuart's Dyspepsia Tablets Will
Give You a New Stomach

It is really astonishing the way one or two Stuart's Dyspepsia Tablets sweeten your sour stomach, stop gasiness, end heartburn, take off the bloated, make you feel easy, contented and ready for the next meal with a grateful appetite.

It is because these tablets give your stomach an alkaline effect. They also aid in digestion. You may eat meat, beans, pie, hot bread, seasoned dishes, sausage, cheese and so on and yet these tablets not only prevent distress of indigestion but serve to stimulate stomach and intestinal secretions that enable you to get the nutritive value of what you eat.

They are the standard for dyspeptic conditions and are sold in drug stores everywhere at 50 cents a box. Try them today. They won't fail you.

STUART'S
DYSPEPSIA TABLETS

What Becomes of the Girls Who Disappear?

YOU wonder what becomes of them—the girls who disappear—drop out of sight, many never to be heard of again.

There are hundreds of such girls. You read about them in the papers for a day or two—then interest lags, and except for a broken-hearted mother, a father prematurely aged and hair turned gray, each case is forgotten in the interest that the next arouses.

Late one night a young girl stepped from a train in the station at Youngstown, Ohio. She was attractive, beautiful and of excellent family.

She wanted to surprise her parents by her unexpected home coming and so, instead of telephoning to her father to come and escort her, she took a night-hawk taxi standing at the curb.

Later, a car came to a stop before a quiet-looking house with drawn curtains, and an unconscious girlish figure was carried quickly up the steps and through the door—a door that might well have borne the legend "All hope abandon, ye who enter here."

That is how one girl disappeared as though the earth had swallowed her. Thus it was that through a simple error such as any girl might make, there began a chapter in her life so

dreadful that she will carry the sickening memory of it with her to the grave.

Ordinarily wild horses could not tear from her the details of the horrors she endured from the time she stepped into the taxi until she was rescued days later from that terrible barred room in the house with the shades drawn down.

But because she realizes that thousands of girls innocently and unthinkingly make errors that might easily result as disastrously as the simple mistake she made, she has relived the episode once again, in order that other girls may be spared the depths of degradation and humiliation she suffered.

You will find her story, told in her own words, in True Story Magazine for March, entitled "Outside the Law." Every word, every incident, every detail, recorded exactly as it was burned into her memory. Nothing is changed, nothing hidden, except the real names of the persons involved which for obvious reasons have to be disguised. It is a powerful, gripping true story that every girl and every parent of girls should read. Never in the history of True Story Magazine, whose purpose is and always has been to fight the powers of evil, has it placed before its readers a tale that will do more to protect girls and women from the human vultures who feed upon the trustfulness and thoughtlessness of innocence than this self-told story of a girl who disappeared. You will find it in True Story for March, now upon the newsstands.

Other Heart-Gripping True Stories in the March Issue Are:

"As a Woman Sows"—To Blanche, marriage for love was a forlorn road to happiness—unless plenty of money went with it to bolster up the matrimonial scheme. So she hesitated not an instant when she saw a chance to lure rich Alexander Potter into marriage with her. She did not count on the fact that a man may be old, but still very clever—and when, shortly afterward, real love actually came into her life, she found that she had recklessly thrust herself into the jaws of a terrible trap from which it seemed there was no escape. Read this girl's confession of her folly and the heart-rending events it led to. It's one you won't forget for many a day.

"How I Won My Husband"—When a girl loves a certain man who is too shy to propose, is it wrong for her to use strategy? That was the question Winnie had to answer respecting Dick. But when she decided to go ahead and win him by methods all her own, she did not foresee the amazing entanglement in which she was to involve herself as a result. While there is a touch of humor in this astounding true story as Winnie tells it—every girl who reads it, whether she is in love or not, will profit by the mistakes that Winnie made.

"The Bigamist's Wife"—Born amid the sordid surroundings of the serving class in London, she came to hate her lowly station even as a child, and determined that some day she would climb to the high social level of those she then served. She had partially succeeded, she thought, when she met and married Harry Hobbs, owner of a large

A Mother's Opinion of True Story

When I read "If Youth But Knew," I decided I would get True Story each month, because I have two boys, one past 16 years and the other 18 years, and there are things boys should know and I dreaded to tell them. We only have the two children and we are a loving family one to the other and I was afraid they would think me bold if I explained plain facts to them.

They are both great readers and want to read every magazine or book that comes in our home. So when I read "If Youth But Knew," I thought our problem was solved. When I put the magazine on the table I left it open at that story. And my oldest boy came and got it and read it and I never let on that I saw him reading it. When he had read them all, he said, "Mother, there are some good lessons for young folks in True Story Magazine. Let's take it all the time." So we all read True Story now. I have just finished reading the February issue, but I cannot tell one story I liked better than the others, for it is as good as all the others.

The only fault I find with it is that it's so interesting I can hardly do my work when it comes in the house. We can hardly wait each month for it and I don't see what you could do to make it a better magazine and I think all folks raising a family should take True Story Magazine, so the young people can read it. I think it would keep many a boy and girl from going astray.

Yours truly,
Melcher, Iowa MRS. A. S. G.

A Record of Life

If Human history could be reduced to a single page—if the lives of the men and women whose names have lived could be recorded in the space of a few paragraphs—one great fact would stand out and dominate all the rest. And that is, that even among the highest and mightiest—sin never has succeeded—wrong never has, and never can win.

If the great of the earth cannot escape the inevitable penalties of wrong, what chance have we lesser ones who make up the majority?

"When she stepped into waiting taxi cab for the journey home, there was nothing in the look or actions of the driver and his companion to give her the slightest suspicion that there was anything wrong." From "Outside the Law" in March True Story

This is a truth about life that Bernarr Macfadden has been hammering home ever since he started several years ago to edit and publish True Story Magazine. In a thousand different ways, touching on a thousand widely-varied problems of life, he has sought, through the pages of True Story Magazine, to drive into the public consciousness those great burning truths about our moral, spiritual and physical lives that every man and woman, every boy and girl ought to know.

That he is succeeding in a big way is attested by the large number of letters from all over the world that pour into the offices of True Story Magazine. Those who have walked blindly have had their eyes opened. Those who needed instruction and guidance have received it, and have profited thereby. Those who have been tempted have seen the Truth, and have found strength to resist temptation. Those who have erred through ignorance or misinformation, have been saved from shame, sorrow and degradation and have found the only way to success and happiness. Such is Bernarr Macfadden's great achievement—one that any man might well glory in.

CHINESE PARLEY TO END CIVIL WAR IS NEAR ROCKS

PEKING, Feb. 5.—[By the Associated Press.]—China's unification conference, by which it was hoped that internal factional strife in the empire would end, today was headed toward a belief of misunderstanding before it had formally organized.

The basis of misunderstanding was revealed today when the adherents of Dr. Sun Yat-sen, head of the government of South China, issued a manifesto in the name of the Kuomintang, or People's party, declining to participate in the conference because it had not taken Dr. Sun's plan for a "people's conference" as a basis for the reorganization of the Chinese government.

Plan Given Support.

Dr. Sun, who has been critically ill at the hospital here since he was operated upon about ten days ago, proposed, according to his adherents, that the "people's conference" should be held after a preliminary meeting had been held by Chinese leaders gathered in Peking. This plan, the manifesto says, had received assurances of support throughout the country, whereas the same sources have not expressed a lack of faith in the conference which was called by the provisional government and attempted an organizational meeting last Sunday. No meetings have been held since.

Will Be Conciliatory.

While Dr. Sun's South China delegation will not support the reorganization plan of the provisional Chinese government, recently set up at Peking, at the same time it will maintain a conciliatory spirit toward the conference, the announcement said.

BAD CHECKS IN 20 CITIES LAND YOUTH IN JAIL

Danville, Ill., Feb. 5.—Lester Westphall, 19, of Waukegan, Wis., jailed here after giving a bad check on the First National Bank of Rockford, to a local grocer, today confessed uttering forty-four similar checks in twenty cities of Wisconsin and Illinois, on which he secured \$870. During his wanderings with his bride of six months, he used several aliases. He was held to the grand jury under bonds of \$2,000 which he was unable to furnish.

Mrs. Westphall, who is 21 years old, and previous to her marriage was Mary Sekas and lived in Sheboygan, Wis., has promised to remain here until his release from prison and help him make a new start. Officers of local women's organizations are interested themselves in her case and will secure employment for her.

PRINTERS' TYPE GURGLS LIKE REAL BOURBON

Prohibition Agent Jack Burke was crossing Dearborn street in front of prohibition headquarters yesterday. As he paused to let an American Railway Express company truck pass the driver halted and asked the way to 450 Plymouth court.

Burke gave the driver's load the once over, then said: "I'm going over that way. I'll show you."

When the two men got to where 450 on Plymouth court should be they could find no such number. The prohibition agent thought a bit, then acted. He ripped off the covering of one of numerous crates marked "Printers' Type." A few minutes later at the prohibition vaults in the Transportation building Burke unloaded twenty-four cases of O. V. H. whisky.

HOLD COLORED POLICEMAN FOR ATTEMPT TO KILL

Christopher Covington, colored policeman and guard for Ald. Robert E. Jackson during election time, was held to the grand jury yesterday on a charge of assault with intent to kill by Judge John R. Newcomer. The charge followed Covington's arrest by five policemen when he attempted to park an auto on Michigan boulevard. Covington is alleged to have drawn his revolver.

Harry W. Starr, Covington's attorney, denounced the police traffic division in general. When he finished the state waived argument and Starr's client was bound over and fined \$1 for the parking violation.

CANADA MOVES TO THROW OFF BRITISH YOKE

[Chicago Tribune Foreign News Service.] GENEVA, Feb. 5.—Canada, adopting its first blow for complete independence from Great Britain, despite Downing street's recent warning, by filing with the league of nations the treaty concluded with the United States on March 2, 1923, concerning rules for fisheries in the North Pacific. Hereafter treaties concluded by Canada have been registered with the league through the intermediary of London. Recently when Dublin attempted to file a copy of the British treaty Downing street protested, declaring that Great Britain alone reserved the right to handle all treaties concerning any part of the empire.

MANDELL SLIGHT FAVORITE OVER TERRIS TONIGHT

TRIBUNE DECISIONS

Decisions of Tribune boxing representatives are:

At Knoxville, Tenn.—Homer Robertson knocked out the Moon of 16 Americans at Boston, Mass.—Tommy Duffy beat Tony Mandell (8); Bart O'Neil beat Al Sears (8).

At Cincinnati, O.—Red Roberts beat Pat Travis (10); Mickey O'Hara beat Vic Nauer (6); Eddy Jones beat Jack Bundy (5).

At Dayton, O.—Tiger Flowers stopped Jamaica Kid (10).

At Wichita Falls, Tex.—Elmer McMullen and Duke Trammel, draw (10).

At Mason City, Ia.—Jackie Conway beat Al Sandage (10); Jack McInnis beat Phil Lange (8); Verno (White) Gerra beat Jack Brauchle (8).

New York, Feb. 5.—[By United News]—The hermit bats in the belfry of Madison Square Garden, which have looked down on many a scene of strife in the ring, were square, will bend their stony eyes to the fastest fight in the present era of boxing when Sammy Mandell and Sid Terris, the lightweight champion, will meet in a fight before a full attendance, as the seats were all sold Wednesday night, forty-eight hours before time.

Sammy Slight Favorite.

Mandell is the favorite by a barely perceptible margin because he seems to be a little more sturdy than Terris and perhaps a little more courageous. Sammy was one of the few youngsters to stand up and barter slams with the laborious Jack Bernstein, who has made many another good man look bad. He beat Bernstein clearly, although Bernstein butted him and tore a gash over one of his eyes which blurred his vision. That was a real test of Mandell's guile and he came through.

Terris, on the other hand, quit a fight about a year ago, claiming that he had been hit low, and this act has not done much to his willingness to keep going when badly hurt. However, in his fight with Luis Vientini the Chilean, whom he outpointed, Terris was felled by a swing to the jaw and came back to win, although he was shy thereafter.

Terris Fast Afoot.

The fighters are about evenly matched as to cleverness and strength, but Terris seems to be a little more fancy with his footwork than Mandell. Terris will be favored by the fact that the bout is to be a 12 rounder, because he usually slows up in the latter stages of a fight.

Followers of the bantamweight division are interested in Harold Smith's twelve round bout with Charles Goodman of New York, in the semi-final of the Mandell-Terris encounter. Both boys are in line for a crack at Eddie (Cannonball) Martin's crown.

Terris Favorite Here.

Local followers of the boxing racket and those closely identified with the game favor Sid Terris to win the popular decision over Sammy Mandell of Rockford in the semi-final bout in New York City tonight. Only a few concede Sammy a chance, and even these say Mandell must show more aggressiveness to earn the verdict.

Some of the boxers maintain that Mandell cannot win the decision by backing away from his opponent while jabbing him with left hands. Mandell's strategy is to keep the eastern judges and referees always favor the boxers who bore in and follow an advantage.

Jack Malone of St. Paul and Ray Pelley of Oakland, Cal., who meet in the main event of the boxing show at Madison Square Garden on Feb. 13, started training at local gymnasiums yesterday.

At the Arcade and Pelley at Muller's. Tickets will be placed on sale on Monday at the usual places. Frankie Welch of the south-west side and Johnny Murphy of Pullman will meet in the ten round semi-windup.

SYRACUSE BOXER
HURTS HEAD IN
FALL AND DIES

Syracuse, N. Y., Feb. 5.—Stanton R. Stever of Watford, N. Y., a sophomore at Syracuse university, died tonight from a fracture of the skull suffered in a practice boxing bout this afternoon at the university gymnasium.

The injury was not a direct result of a blow, it was said, but resulted from Stever's fall during the bout, his head striking sharply against the floor. He was boxing with Carl Hansen, a member of the Syracuse varsity football squad, at the time.

STONEHAM TRIAL
POSTPONED DAY

New York, Feb. 5.—The trial of Charles A. Stoneham, partner owner of the New York Giants, and five others in the federal court on charges of using the mails to defraud today was postponed until tomorrow to allow Judge Winawer time in which to reach a decision on a motion asking him to direct an acquittal of the defendants.

Sarmiento Will Battle
Macey on Milwaukee Card

Milwaukee, Wis., Feb. 5.—Pete Sarmiento has been matched to box Eddie Macey here Feb. 9 in the semi-final of a card which will feature Joey Sanoor of Milwaukee and Frankie Monroe of Los Angeles. Sarmiento is filling a gap left in the program when Eddie Shea of Chicago withdrew because of illness.

ELLIS TRIMS THURNBLAD.

Milwaukee, Wis., Feb. 5.—[Special.]—Charley Ellis of Pittsburgh won two National Three Cushion Billiard league games here today from Arthur Thurnblad, 50 to 41, in 50 minutes, and 50 to 45, in 50 minutes. Ellis' high runs were 4 and 5. Thurnblad scored 6 and 8.

MOON MULLINS—MISS SCHMALTZ NOW BROADCASTING

DON'T TRY TO ALIBI TO ME, MOON MULLINS IN MY ESTIMATION YOU ARE SO LOW THAT IF YOU HAD RHEUMATISM IN YOUR FEET YOU'D COMPLAIN OF HAVING A HEADACHE.

HELLO FOLKS, I'M SO GLAD TO SEE YOU HAPPILY TOGETHER AGAIN—AFTER MOONS TRYING TO MARRY THE SPITFIRE MONEY THE MINUTE YOUR BACK WAS TURNED EMMET.

PERHAPS I SHOULDN'T HAVE MENTIONED IT, EMMET, BUT AS MY LAST HUSBAND, WHEN I ASKED HIM WHERE I SHOULD WEAR A BEAUTY SPOT, LAUGHINGLY SAID: "WHY DON'T YOU PASTE IT OVER YOUR MOUTH SO YOU CAN'T TALK SO MUCH?"

WELL, FOR ONE THING I'VE ALWAYS NOTICED THAT TALKATIVE WOMEN WERE MORE POPULAR THAN THE OTHER KIND.

WHAT OTHER KIND?

THE MOOSE! LOOKS AWFUL SMALL WITH YOU STANDING NEXT TO HIM.

GOSH! THE MOOSE LOOKS AWFUL SMALL WITH YOU STANDING NEXT TO HIM.

LISTEN, YOU BETTER LET ME STAND NEXT TO HIM! IT WILL MAKE HIM LOOK BIG!

DOLAN TO ASK O. K. OF LANDIS; WON'T SUE

New York, Feb. 5.—[Special.]—"Cosy" Dolan, accused by Jimmy O'Connell of urging him to approach the Philadelphia Phillies with a bribery proposition in the famous Giants-Phillies game of Sept. 27 last, declared today he will make another request of Commissioner K. M. Landis for his reinstatement in organized baseball when the commissioner returns to this city from his Panama trip, and that he has no intention of bringing any legal action against the advisory council. He also said he had no intention of asking any legal redress of O'Connell.

Dolan was at the offices of the New York Giants today, happy and smiling. He had a chat with Frank Frisch, the captain of the team, who was exonerated in the scandal case by Assistant District Attorney Brothers on Wednesday. Frisch was on hand to talk over his 1925 contract with John J. McGraw, who departed tonight for Florida on a delayed vacation.

Dolan Sorry for O'Connell.

Whether Frisch came to an agreement with McGraw and whether Dolan saw his former manager was not stated.

"I consider I have been exonerated by the finding of the district attorney," said Dolan. "If I did not succeed in putting an end to the suspicion cast on me by O'Connell's charges in my testimony to Brothers I am sorry I answered every question he asked truthfully."

"I will try to see Landis when he comes here, or at his office in Chicago, and I will ask him to reinstate me. I want to go to work and I think I am entitled to the chance."

"Do you still mean to ask \$50,000 damages?" he was asked.

"There is nothing to that story. Neither is there anything in the fact that I am going to sue O'Connell. I am only sorry for him."

When Assistant District Attorney George N. Brothers wrote his report of the O'Connell-Dolan bribery case to his superior, District Attorney Egan, he probably penned the last chapter of this nasty baseball mess. Brothers says the question of the advisability of asking for an indictment against O'Connell will be taken up with Commissioner Landis on the latter's return from his vacation, but there is serious doubt that such action will be taken.

The assistant district attorney admits the weakness of the case, and in his report to Egan he called attention to the fact that Landis' testimony did not include any transcript of O'Connell's "alleged confession." As a matter of fact there is no signed confession by O'Connell in existence, nor is there any verbatim report of his verbal confession.

OVERCONFIDENCE
CURED, YANKS IN
NOW—RUPPERT

New York, Feb. 5.—Col. Jacob Ruppert, owner of the New York Yankees, "can't see" any other pennant possibilities in the American league outside of his former world's champion outfit.

"When asked what he thought of the 1925 team, Ruppert said today: "Most certainly the Yankees will regain the American league championship, and very likely the world's title as well. The New York club fell down because it suffered from the ailment which in time attacks all champions—overconfidence."

WALKER, SICK,
REFEREES IN D. C.

Washington, D. C., Feb. 5.—On the advice of physicians, Mickey Walker, welterweight champion, did not participate in his scheduled eight round exhibition tonight at the Congressional Country club, but acted as referee.

It was explained Walker had been ill in bed, but got up to keep his engagement here, and in a ringside speech said he was especially pleased with his meeting today with President Coolidge. When presented by Walker with a pair of five ounce boxing gloves the President wanted to know what he should do with them.

"Use 'em on your next congress," Mickey said he told the executive, and drew a grin for reward.

Larrabee "Y" Basketball
Meet Draws Big Entry

Owing to the large number of entries in the North Avenue Larrabee Y. M. C. A. basketball tournament, it has been necessary to form three leagues instead of two, as originally planned. In addition to the closed and open tournaments, an Industrial league has been organized with some of the strongest industrial teams of the city entered. The next round of games will be played Saturday night, beginning 8:30.

Thaw Delays Finals
of Badger Bonspiel

Portage, Wis., Feb. 5.—[Special.]—All games in the Wisconsin state curlers' bonspiel were postponed today because of moderating weather. Play in the finals of four main events will be resumed as soon as ice is available.

SMITTY—THE BOSS IS AN ECLIPSE!

DID I GET HIM?
SURE, KEEEL HIM!
SMITTY! I JUST KILLED A MOOSE! BRING THE CAMERA WITH YOU!
GEE, SOME BIG!
YES, NOW YOU TAKE MY PICTURE STANDING NEXT TO HIM.
GOSH! THE MOOSE LOOKS AWFUL SMALL WITH YOU STANDING NEXT TO HIM.
LISTEN, YOU BETTER LET ME STAND NEXT TO HIM! IT WILL MAKE HIM LOOK BIG!

MILLER TO BE CUBS' FIRST TRAINING SQUAD

BY JAMES CRUSINBERRY.

Upon his return yesterday from the New York meeting of the National League, President Veeck of the Cubs decided to send the north siders to the training camp in two squads. Plans had been made for the entire gang to begin work on March 2. A letter from Hack Miller, who is wintering in Oakland, Cal., caused the change.

Hack wrote requesting he be permitted to go into camp with the first squad.

"That means something to me," mused Mr. Veeck. "It apparently means Hack has taken on some weight and wants to get it down to fighting weight. But we haven't any first squad, so the best thing to do is create one."

Whereupon Mr. Veeck dictated a long telegram to his hefty slugging outfielder:

"Mr. Hack Miller, Oakland, Cal.—Your letter received. We have no early squad, but I hereby delegate you to be one. You report at the Catalina camp on Feb. 20. You'll find Manager Killam and Capt. Maraville there playing golf and fishing. Pay no attention to them. Register at the hotel and leave an 8 o'clock call each morning. Go out and climb the mountains until noon. Return to the hotel and eat a lettuce sandwich. Go back to your work of climbing mountains. Climb a lot of 'em. Do it every day until the rest of the gang gets there, and then you can start in playing ball every morning and afternoon. Best wishes."

No Trades in Prospect.

Mr. Veeck was jesting a bit, but at the same time was in earnest. He wants to see Hack get off some of his poundage and speed up. No telling how many ball games he would bust next season if he only were in there socking the ball every day. If he hits out a bit and speeds up a bit he'll be in there holding one of the regular outfield jobs. As he climbs a lot of mountains every day and eats a lettuce sandwich as a meal he will surely thin out. The scheme has merit to it.

The Cubs' boss stated one time tried to make any trades with him at the New York meeting, so he was of the opinion the Cubs would have to go into the pennant fight with what they now have on hand. For the next three weeks he will give his attention toward getting all the players signed, though most of them are now in line.

Lewis and Zickman in Wrestling Bout Tonight

Ed (Strangler) Lewis, who still claims the world's heavyweight wrestling championship, and Joe Zickman, known in mat circles as the "ringer," will take holds in the main event of the wrestling bouts at the Star and Garter tonight. In his bout with "Toots" Mondt at the Coliseum last Tuesday, Lewis showed he has lost none of his skill and generalship which have enabled him to hold the title for four years. In the other contest Richard Schukert, the giant German, will be put to the test by Paul Martinson.

Impossible Task for Nurni.

"Paavo Nurni," comments Helper C. F. C., "has now outrun every one in America except the Bryan boys, Bill and Charlie."

These Days of Chivalry.

While riding down on an Evanston "L," I discovered that chivalry isn't really dead. Two nice, healthy men were sitting down. One kindly pushed the people on the seat with him to make room for a nice old lady. The other, not to be outdone, offered to hold the package of the lady standing in front of him.

Dumbbell Pomes.

Mary has hit her lamb, it ate a cucumber puzzle; it used to be so nice and tame, but now it wears a maul.

Circumventing the Test.

This talk about girls who wear big hats being so good is the bunk. I wear a big hat, but he takes it off for me and gives me his scarf.

Ever Bite on This One?

"Why, four months after Coolidge is inaugurated you won't be able to cash a check."

"What makes you think that?"

"It will be Independence day."

Do You Remember Way Back When?

Stylish ladies affected the "kangaroo walk"—J. F. N. Berwyn, Ill.

In the Wake of the News

COSY DOLAN'S CASE.

COZY DOLAN, suspended Giant coach, thus far refused reinstatement by Commissioner Landis, threatens to take his troubles into court. If he does, organized baseball's right to govern itself by other than strictly league convention will receive a test which, if carried to the Supreme court, will definitely establish or negative that right.

It is unlikely any jury would convict Dolan, defended by a good criminal lawyer, on the evidence so far adduced. O'Connell's charge against him, denied by Dolan, was unsupported. Three other Giants also denied O'Connell's charges. They were exonerated. The difference was that their answers were flat denials, while Dolan's replies were held by Commissioner Landis to be evasive and circumstantially corroborative of O'Connell's story.

Organized baseball, in the past, has not welcomed legal tests. It prefers to keep out of the courts. That is natural. It has nothing to gain and much to lose by curtailment of its extralegal authority over its club owners and players.

Judge Landis himself once heard a dispute between the defunct Federal league and organized baseball. He withheld his decision so long the questions became "dead" over the years.

Central authority of its own is necessary to the best interest of organized baseball. It works faster than courts. Suits and counter suits hamper administration. It is possible a supreme judicial tribunal would uphold such rights. If it did, baseball would be even more strongly entrenched. A decision adverse to these rights would "mess up" affairs.

Derby Forecasts.

The season's fast approaching when Derby racing fans begin to tell us to which horses they incline.

Sports writers, too, are announcing records—each has his favorite champ.

Whose merits he'll keep extolling till he gets the writers' cramp.

Master Charlie will hold the limelight, he's mighty dangerous.

Yet knowing ones will be just as strong in praise of Stimulus.

But there is still another nag, and ere we close down the lid.

Let's look into his pretensions, for he's called The Candy Kid.

T. J. V.

Appeal Through Athletics.

Director Stagg is going out for a to make any trades with him at the University of Chicago general development. Have you ever noticed when money is to be raised from alumni athletics are called to the rescue? Pretty strong endorsement for college sports, isn't it?

Impossible Task for Nurni.

"Paavo Nurni," comments Helper C. F. C., "has now outrun every one in America except the Bryan boys, Bill and Charlie."

RUDOLPH RUNS 60 TO SPLIT WITH NATALIE

Pasquale Natalie of Baltimore, who is in the first division of National Pocket Billiard game, romped away from Irwin Rudolph in the afternoon game yesterday, winning 100 to 52 in 19 innings, but in the evening game came back and took the contest in 15 sessions, 100 to 68. Rudolph had an unfinished run of 60. Natalie made high runs of 23 and 14, while the local player recorded at 14 in the afternoon contest. The two will play again today at 3 and 8 o'clock at Muesse's.

Larry Wakefield of Cleveland best Augie Kieckhefer in the third and fourth contests of the National Three Cushion Billiard league series yesterday at the Kieckhefer recreation room. The visitor won the afternoon tilt in 54 frames, 50 to 41, and the night game, 50 to 33, in 50 minutes. During the afternoon, Wakefield marked up a high run of 8, while Augie registered the best at 5 and 6 o'clock at Muesse's.

COCHRAN BEATS CANNEFAX IN EIGHTH BLOCK

New York, Feb. 5.—[Special.]—Weicker Cochran of California won his first block in his special 600 point match at three cushions with Robert L. Cannefax, world's three cushion champion, tonight, when he captured the eighth block at 43 to 40. The game lasted 81 minutes, and for the first time in the match Cannefax's average for the total innings fell below 1. The score now stands 480 to 362 in the champion's favor and the total number of innings is 491.

In the afternoon game Cannefax was the winner at 60 to 45 in fifty-two innings. The feature of the block was his run of 11, the best in the match to date.

COPULOS LEADING HOPPE, 100-72, IN FIRST 2 BLOCKS

Detroit, Mich., Feb. 5.—[Special.]—Will Copulos, the first to blocks of his 200 point three cushion match with Gus Hoppe here today, dropping the first block in 40 innings, 50 to 19, and the second, 50 to 43, in 55 minutes.

Hoppe was behind all the way, and at no time outplayed the winner, although in the evening game it looked as if he would overtake Copulos and win the block.

The score at the end of the second block was: Copulos, 100; Hoppe, 72, after 95 innings of play.

PEABODY SUES GIANT OWNERS

New York, Feb. 5.—John J. McGraw and Francis X. McQuade, manager and treasurer respectively of the New York Giants, were made defendants today in a suit for \$66,666 on allegations that they had "frozen out" Frank Peabody, former police captain, from a partnership in the baseball club. It was intimated that the complaint may be amended to demand one-third of the profits earned by McGraw and McQuade since with Charles A. Stoneham, they bought the Giants in January, 1919.

TWO FOR TABERSKI.

Brooklyn, N. Y., Feb. 5.—[Special.]—Frank Taberski of New York won two National Pocket Billiard league games today. He defeated Joe Concanon, 100 to 9, in 44 minutes, and second game, 100 to 39, in 23 frames. Taberski made high clusters of 27 and 63, while Concanon registered 7 and 17.

INTERCOLLEGIATE DANCE TONIGHT!

HONORARY KEYSTRA WINS "RED" GRANGE

HARRY THOMAS KEWILL, RALPH BAKER, PAUL PERRY, and a host of friends, will meet at the "Red" Grange tonight to meet these stars.

THE PUBLIC IS ORIGINALLY INVITED TO MEET THESE STARS.

One Block East of Madison and State Sts.

JACK WITH ESTELLE, BUT GETS SECONDS, NOT WEDDING, LICENSE

San Diego, Cal., Feb. 5.—[Special.]—Jack Dempsey and Miss Estelle Taylor, the latter chaplain of Jack's mother, moved today from a suite in the Hotel Del Coronado, on the San Diego beach front, to the U. S. Grant hotel here, but made no move toward the county marriage license bureau during the day.

Jack recently secured a license from the state boxing commission to act as a second and is advertised to be in Joe Benjamin's corner tomorrow night, when Benjamin fights ten rounds with Johnny Reiser here.

Dempsey and his fiancée were personal guests of James W. Coffroth at the races at Santa Anita this afternoon. They returned to San Diego tonight with a party of Coffroth's friends.

FARM & GARDEN

SHORTLY before growth starts in the spring is the best time to trim shrubs that have highly colored bark. Bromes barked willows, Siberian pea, red branched dogwood and other shrubs of that class are grown in comparatively large thickets, so that one-half the bed can be cut out nearly to the ground each year, allowing the young growth to come up the following season.

It is the young wood that gives the highly colored bark in winter, and by following a definite system of pruning brilliant color will be in the shrubbery thicker every fall after the foliage drops.

Where the pruning is done in the spring just before growth starts, according to F. A. Aust, University of Wisconsin, it gives the intensely brilliant color during the cold months of the year and the shrubs can usually be cut down to within six or eight inches of the ground.

Mr. Aust follows a definite system of pruning every year to avoid spoiling the shape of the shrubbery bed.

LEICESTER BOOTERS WIN.

LEICESTER, England, Feb. 5.—In a sensational game, Leicester today eliminated New Castle United from the English football association cup competitions, 1 to 0. New Castle United is the cup holder.

ROMANO PICKED TO MEET WAYNE MUNN

Mike Romano, the Italian heavyweight champion, has been selected to meet Wayne Munn, the former Nebraska football player who claims the world's heavyweight title, in the wind-up of the wrestling show to be conducted by Promoters White and Coffey at the Coliseum on Feb. 16.

Legal complications entered into the contest. Billy Sandow, manager of Ed Lewis, hearing of the match and the intentions of the promoters to advertise Munn as the world's champion, threatened to ask for an injunction forbidding the use of the term world's champion with Munn's name.

Confronted with this entanglement, the promoters are now seeking legal opinions and if necessary they will go to court to secure a decision one way or the other.

WOODS AND WATERS

NOW that Becky Broomhill, that famous old pointer, has won the national championship, the most coveted honor for bird dogs on the field trial circuit, owners of pointers are telling the world that their favorite breed can't be beaten. All of which doesn't make it any too easy for the setter fanciers. This dog, veteran of many, many contests and the mother of a number of promising puppies, was not only good enough to win the national championship but to cop it three times at Grand Junction, Tenn., thus winning the Mary Montrose trophy.

This is quite a record and Becky's owner says she is now through competing on the circuit. The dog has been sent home to take it easy the best of her life. Although no longer the snappy stylish field performer that she was some years ago, Becky won the championship this year because she used her head as well as her legs. She knew where quail should be and where she went.

WARRIE SMITH MATCHED WITH LARRY ESTRIDGE FOR FEB. 13

Removal Sale

—Beginning Tomorrow Morning at 8:00—

Our Entire Stock of the Famous Hand-made

Stylebilt Clothes

for Men and Young Men, to be Disposed of At Once, at

Sweeping Price Reductions

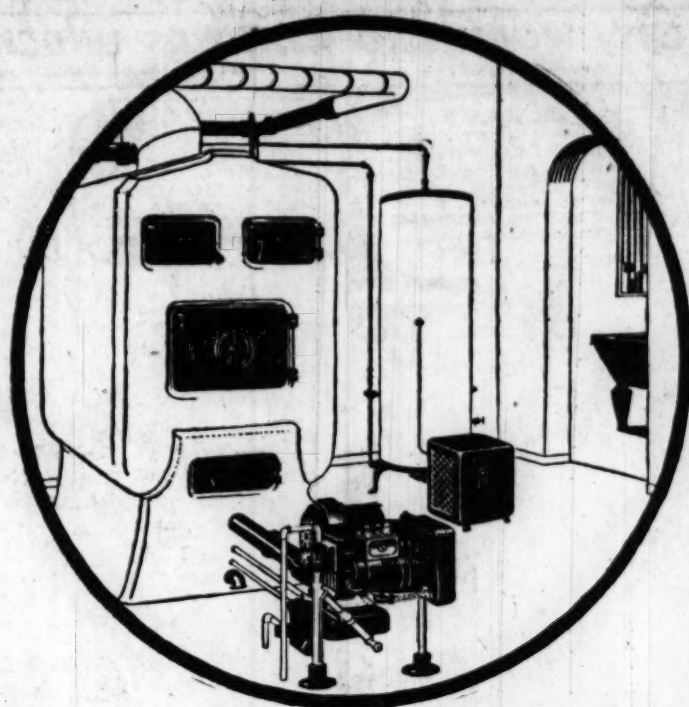

THE ever-growing volume of our business—made up of probably the most select clientele of its kind in Chicago—necessitates new and larger quarters. On or shortly after March Sixteenth we will move to our new home at the *H. W. Corner of State and Jackson Streets* (ground floor), where we will open with a complete new stock of **STYLEBILT** Clothes for Spring.

To effect immediate and absolute clear-

More than an Oil Burner

When a home-owner buys Nokol he buys more than an oil burner. He buys an automatic heating service that ends all heating trouble and care. Seeing to it that this statement is literally true is more important to us than making sales. For when it is true, sales follow inevitably.

Into the rendering of this service, two factors enter:

1. **The Nokol Mechanism.** Nokol as a mechanism is perhaps the most nearly perfect ever presented to the public. Time has proved it so basically right that in the seven years since the first Nokol was installed its design has not been altered in one essential detail. No radical change has been possible. Nokol is today the simplest oil burner on the market. It furnishes the most economical heating service known. Its fuel cost is to the best of our knowledge less than that of any other oil burner, regardless of the grade of oil used.

2. **Experience.** The 7 years' experience in the field actually installing Nokol in the home is Nokol's most valuable asset. This is an experience approached by no other oil heater. And on this experience have been founded the fundamental policies and practices on which the success of Nokol has been built.

An oil heater is not like an automobile, a complete unit in itself. It operates in conjunction with the heating plant. It is an en-

gineering job, and the efficiency of the installation depends on the care with which it is made.

Nokol is installed only on one basis: Wherever it is installed it must give automatic heating service. If changes are necessary in the heating plant they must be made before Nokol is installed. Nokol is not sold as a cure-all for troubles which exist in the heating plant itself. We do not recommend low grade oils incapable of rendering automatic heating service. The bars are not let down in the hope of making a sale, for a sale is not a sale unless the installation gives entire satisfaction.

Again, our record of service calls is remarkably clean, lower we believe than that of any mechanical device used in the home. Yet when service is needed, it is immediately available.

The result is that wherever Nokol is installed it does give automatic heating service. In more than 20,000 homes it has ended heating trouble and care.

For whatever purpose you want heat, whatever type of home or heating plant or water heater you own, there is a Nokol made for it. An installation can be made in a few hours, without interrupting your heating service. Call, phone or send in the coupon today.

Why doesn't Nokol burn fuel oil?

We are often asked why Nokol doesn't burn fuel oil instead of distillate. There are five good reasons:

The Nokol combustion chamber is one of the basic reasons for Nokol economy.

Distillate is clear and free flowing. Fuel oil is too heavy and gummy for automatic heating service.

This never happens with Nokol. It always happens with poor combustion or poor fuel.

1916
1925

Nokol discovered the fuel oil fallacy 9 years ago.

Nokol has always been tested and listed as standard by the Underwriters' Laboratories.

1. Because it doesn't have to. Nokol burning distillate, is the most economical oil heater on the market. Experience in 20,000 homes shows its fuel cost to be less than that of any other oil burner, regardless of the grade of fuel used.

2. Because low grade oil is false economy. It is not the initial cost per gallon of fuel that counts, but the cost per unit of heat delivered to the heating plant. An automobile wouldn't attempt to burn kerosene instead of gasoline merely because it is cheaper per gallon and contains more heat units per gallon.

3. Because Nokol is an automatic heating service. The automatic oil heating industry today exists because of the success of Nokol. One of the important reasons for its success is the use of the proper fuel. An oil that contains grime, dirt and water and clogs up the heating plant, cannot give automatic heating service. An oil that congeals in cold weather cannot give automatic heating service. An oil that causes soot stalactites in the boiler cannot give automatic heating service. An oil that does not ignite infallibly cannot give automatic heating service. Nokol burns with a clean, sootless, odorless flame.

4. Because Nokol has been through this phase. There is nothing new in attempting to burn fuel oil in the home. Nokol considered doing so nine years ago, but the proposal never got farther than the laboratory. Most oil burners which started burning fuel oil in the home have since come round to burning lighter oils.

5. Because no automatic oil burner is listed by the Underwriters' Laboratories to burn fuel oil in the home. The Underwriters' Laboratories are maintained by the National Board of Fire Underwriters to pass on the safety of devices that may affect fire hazard. Look for their listing on any device you put into your home.

Burned Evidence

By MRS. WILSON WOODROW

SYNOPSIS.
The story is being told by young Dandridge, junior member of an old New York firm of lawyers. Old Jerome Fodick, one of the richest clients of the firm, invites Dandridge to lunch at his house. The young lawyer is interested in the old man's granddaughter, a beautiful young society woman who is Fodick's sole heir. Fodick tells Dandridge that after his death a South American woman appeared at the Fodick home with baby Sara, whose mother, the nurse said, had died soon after the baby's father. Fodick had investigated the woman's story and found it to be true.

INSTALLMENT V. CHECKMATE!

While she talked, Fodick sat, head sunk on his chest, his eyes at their old trick peeling off layers of madam's personality. It seemed to me he was at once curious and infinitely amused, watching with zest all the woman's moves, and maliciously delaying his own. He reminded me of an aged cat patiently trying the gambols of a bold, aggressive rat, and replying on his time tried technique rather than his physical agility to conquer at the ripe moment.

From Fodick my glance turned to Sara. She had grown noticeably pale; but her composure was untouched, and she was absorbing every word and movement of the seeress. Admittedly, I reflected with of harder stuff than I. She stood the combined battery of the Fodick eyes without a sign of trepidation.

"Hm! So that is your story, madam?" remarked old Jerome. "And now unless I am mistaken, you are here to lay claim to the jewels and the money?" "The jewels and the money, with interest on the money for twenty years. It does not repay me for my sufferings." Again madam raised her handkerchief to her eyes.

"Exactly. But matters of this sort are usually conducted through one's attorney, Mr. Dandridge, will you talk to Madam Adelson?" "I was no longer the mere witness, Fodick had waved his hand at me, as if to say: "Hangman, do your duty!" "It is an amazing story, madam," I began. "You have complete proofs of your statement? Mr. Fodick will naturally require that."

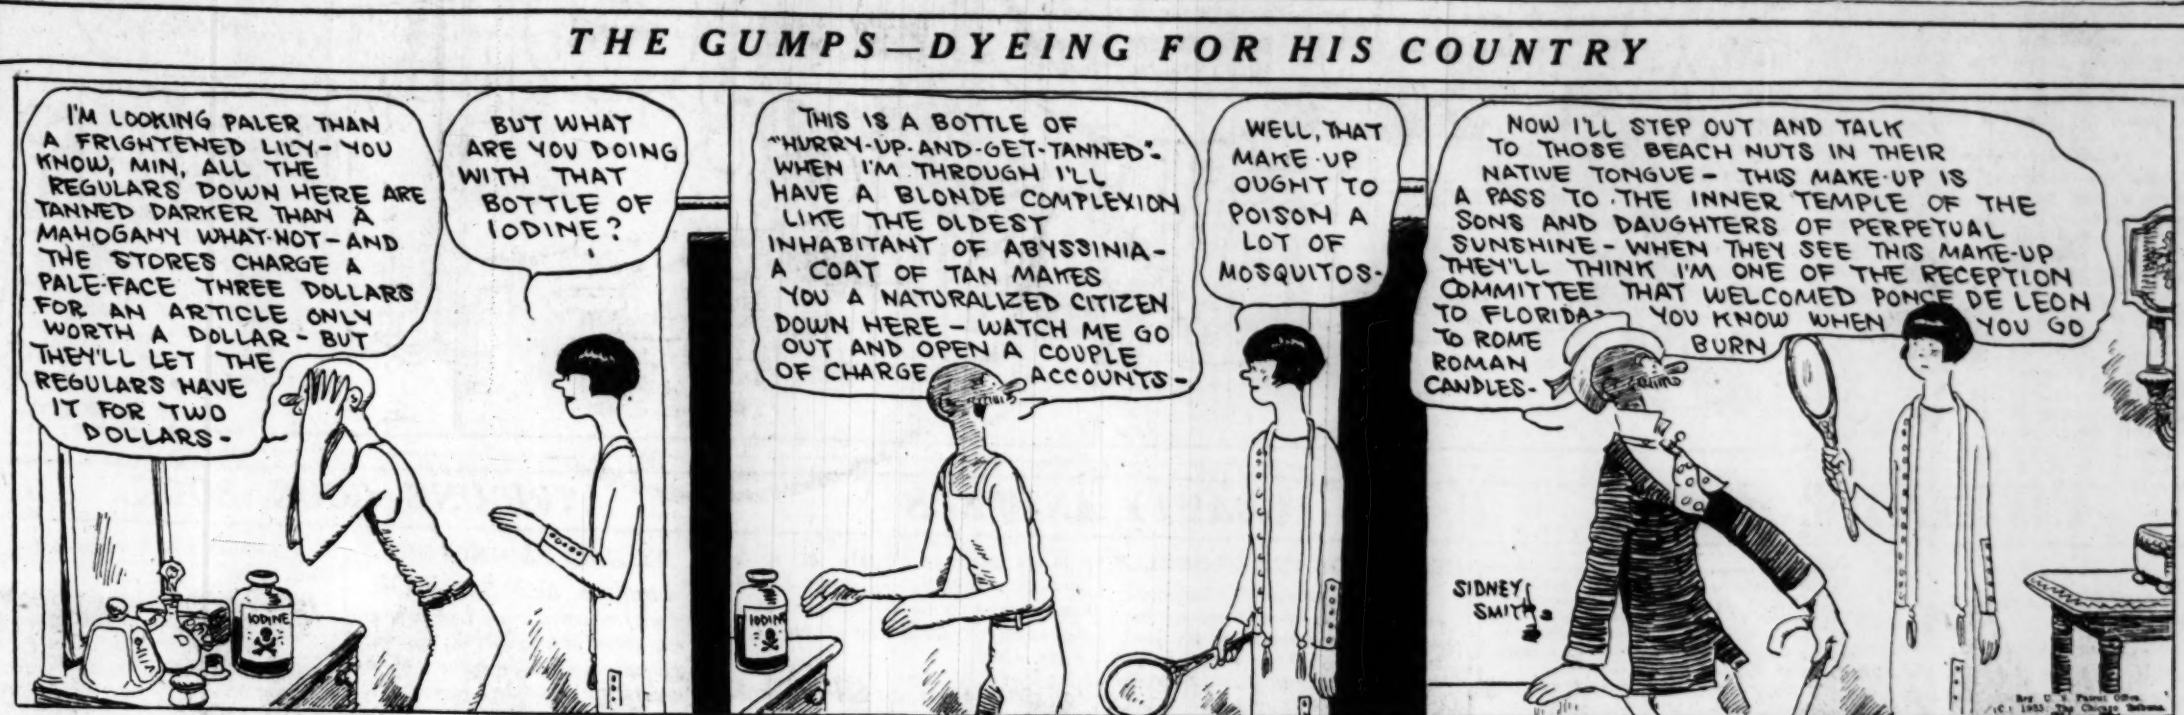

With a disdainful gesture, she lifted her bag and pulled apart the strings, drawing out a yellow, faded paper which she handed to me. I opened it, and discovered it to be a receipt for the jewels and money entrusted to the writer by Madam Adelson. The jewels were listed as an emerald and diamond necklace, a pearl collar of several strands, fourteen rings

—each described, and all more or less valuable—and a number of brooches, pins and smaller ornaments. The amount of money was stated; twenty-five thousand English pounds. The signature, Estrella Fodick, was written in the same hand.

"I see," I said, passing the paper over to Fodick. "Was the person who signed this document an Englishwoman? It is written in that language." "She would talk or write only in English," madam replied, readily. "She visited me as an American. There were reasons for this, I have since learned. As you reason!" significantly. "She was Spanish, a dancer at Madrid in the theater there; and the police watched her as cats a mouse. She was in the influence of an officer who was allowed to leave the country. She was glad to go, to go quickly with Mr. Fodick's son, who was infatuated with her, and believed her slandered, pure as the snow."

"I didn't like it. The woman, experienced as she must be, would hardly be making such claims unless she had a basis for them in fact, and a pretty solid one, too. With the guileful flocking to her senses, she could not afford to be shown up in New York as attempting a swindle. "Have you a lawyer?" I asked sharply.

For just a moment she hesitated. "I need none," she said haughtily. "Are not the proofs there before you—in her own handwriting?" "Nevertheless, you had better engage counsel," I returned. "Mr. Fodick is a business man, and he will insist on this matter being conducted in a business way. He can hardly ask you to leave this paper in his hands, even if you were willing to do so; but we shall naturally want the opinion of experts in regard to its genuineness, and will also wish to make a thorough investigation of your statements concerning the late Mrs. Fodick. For your protection in these inquiries, and also to expedite the affair, you will require the services of a reliable attorney."

Sally's Been Found! And She's All Right

But the Girl Certainly Has Lived.

"SILK STOCKING SAL"
Produced by F. B. O.
Directed by Tod Browning.
Presented at neighborhood theaters.
THE CAST:
Sal Evelyn Brent
Robert Cooper Robert Ellis
Abner Bingham Louis Fitzroy
Barnum Basemant Annie
"Gopher" Banning John Browning
"Gopher" Banning John Browning
"Bull" Reagan Earle McCalfee

By Mae Tinée.
Good Morning!
Those who've been wondering what's become of Sally will rejoice to learn that the girl's been found.

Believe me she's LIVED since she went away from the alley!

In the first place she became a member of a gang. "Silk Stocking Sal" they called her because she had sleek legs and a de luxe style all her own of landing loot. The leader of the gang was crazy about her from the start. (Another not at all perfect lady was crazy about HIM, which almost spelled finis for her Sally.)

You'll be glad to know that before Sally went TOO far wrong she met on one of her thieving expeditions, an awfully nice family. The son of the house, in fact, caught her in the act of rifling the safe in the library. Something about her, though, convinced him that at heart she was all right, so he took her right into his office and home, and his mother and sister grew to think there was simply NOBODY like her. So did he.

Well—some pretty hectic times ensued, but Sally repaid the Coopers' trust. Saved the son from the electric chair!

But there—I'll tell you what's become of Sally and let the picture unfold other details.

Today, my dears, she's young Mrs. Robert Cooper and running with the crème de la crème. Some tumbled mess, though, she got into before the happy ending!

"Silk Stocking Sal" is really quite a snappy crook picture. It's well cast, acted with zest, and has some good old blood and thunder melodrama for seasoning.

See you tomorrow!

CLOSEUPS

Universal is to make a picture in the east called "The Roofs of New York." A Prince Youssou Troubetsky of Russia has been signed to appear in the production. This will be his first picture work in this country.

John Patrick will have a leading role in "A Girl's Rebellion," made by Metro-Goldwyn-Mayer from the story by Rupert Hughes.

Co-operation Has Remade Business, Medillians Hear
National industrial cooperation is the foundation on which this country should build a more productive and extensive commercial system, in the opinion of John N. Van der Vries of the Chamber of Commerce of the United States, who spoke last night at the Medill School of Journalism on "Playing a Lone Hand in Business."

"In the years preceding the war," Mr. Van der Vries said, "the creed of the American business man was 'Every man for himself.' Laws passed by one group to restrict another re-acted upon their makers. To meet competition, every merchant carried a vast excess of stocks and styles, which resulted in tied up capital and great economic waste. There was not even a common terminology in related industries."

"Then came the war, and the government and business got together and decided the only way to win was by cooperation and the conservation of resources. For the first time related industries were brought into contact with each other and set about establishing universal accounting systems, eliminating excess styles and patterns, and bringing themselves to a closer understanding and a saner basis of operation."

"Distribution is the great problem of the United States today, and the one crop farmer is as much at fault as the ultimate consumer's dollar as the citizens of small towns who depend for their livelihood on the production of one article. Both are adding to the burden of business."

Made-in-Chicago Styles Revealed in Fashion Show
Made-in-Chicago styles are being displayed at Rainbo Gardens in an elaborate fashion show, presented by Chicago manufacturers of women's ready-to-wear garments. New fabrics are the camel's hair, twills for coats and ensembles; prints in crepe and chiffon for afternoon frocks; pastel-toned chiffons, shading from pale flesh at the shoulder, to deep rose at the hemline, for dance frocks, and ribbed silks in gay sports shades for street wear. Top coats and ensemble costume coats indicate a tendency away from the wrap-around fastening and toward the tuxedo fastening.

Mrs. Frank T. Brown's Right in Aldermanic Race Is Questioned

Mrs. Frank Townley Brown, one of the three woman candidates for places in the city council, is said to have forgotten to register.

In the city council, it is said to have forgotten to register. Consequently, Alexander Schroeder, another resident of the Forty-fourth ward, who says he is a registered voter, has filed an attack upon Mrs. Brown's candidacy.

MRS. FRANK TOWNLEY BROWN, one of the three woman candidates for places in the city council, is said to have forgotten to register.

Johnstone, in his petition of candidacy, says he lives at 2406 North Clark street, and Mrs. Brown's address is 428 Surf street. There was a Johnson, or Johnstone, who attempted to register in the precinct in which 2406 North Clark street is located, according to the judges and clerks of election, but this person gave his address as 2428 North Clark street.

One of the judges insisted that 2428 North Clark street is a vacant lot, and the applicant then said his address was 2428 Geneva terrace. It is assumed this person is not connected with J. W. Johnson.

Mrs. Brown and Johnstone are not the only candidates in trouble. However, members of the board of election commissioners predicted last night that before midnight, the deadline for filing petitions, entries in half of the fifty wards would be questioned.

Ald. John J. Coughlin [list] will probably be without opposition if attacks on the validity of his remaining competitors are sustained by the election board. One of two aspirants for Coughlin's seat withdrew Tuesday when irregularities in his petition were pointed out.

Withdrawal of two of his three opponents, the Twenty-third ward is taken to indicate that Ald. Joseph O. Kostner is recovering from the nervous breakdown which has kept him in a hospital for two months. Walter F. Gallas, one of Kostner's ward organization leaders, filed a petition in his own behalf when it appeared the alderman would be too ill to make the race.

The Inquiring Reporter

Every Day He Asks Five Persons, Picked at Random, a Question.

The Tribune will pay \$5 for each question accepted by the Inquiring Reporter to ask. Send name and address with your question to "The Inquiring Reporter," Chicago Tribune. For today's question Jane Wilmer, 800 South Halsted street, was awarded \$5.

The Question.
Who is the most promising young movie actor or actress?

Where Asked.
Randolph at State street.

The Answers.
Miss Ethel Millmine, 615 North Dearborn street, waitress—That would exclude Jackie Cogan, wouldn't it? I am trying to think of little Dorothy somebody, with bobbed hair and bangs who is a wonder in child plays.

"Peter Pan" fame—she is the most promising of them all.

Ray Lange, 5043 East 49th street, chauffeur—I would say Charles—He is a good looking, and the expression he uses when making love are wonderful. Everything he does is good.

Miss Alice Smith, 245 Eugene street, home girl—I wonder who that can be, outside of myself? Let's see, Ricardo Cortez, O, and he's a shiek. His love making is O, wonderful. He has Valentino lost in a fadeout.

If he were the leading man I would like to be his leading lady, I should say.

Harold Friedman, 1543 South Lawn avenue, student, Gertrude Olmstead won in a beauty contest a few years ago, and she is making her way right along. I have been watching her rise, and noticing the write-ups about her in the magazines. She and Cullen Landis are the promising ones. I can think of Miss Teresa Degnan, 4131 Jackson boulevard, bookkeeper, that ever happened. But he has already gone as far as any one can go. Vera Reynolds is about the cutest thing I have seen. I saw her in "Feet of Clay," and she impressed me as being quite an actress, in addition to being a charming young woman.

Milady Must Wear Blue to Follow the Fashion

[Chicago Tribune Foreign News Service.] PARIS, Feb. 5.—Blue—every shade from the palest to ultra marine, including a new light tone called porcelain blue—has become the rage in Paris over night. The spring and summer collections of the leading dress makers, just begun to be shown, reveal that the couturiers with one accord have concentrated on blue tints for afternoon gowns, evening dresses, tailor-made, three-piece, and morning suits. Shorter skirts—so short they are measured on the side to strike just below the knee and with every step bounce above, revealing the ankles—mark the most striking sensation and forbid the further rolling of stockings by dappers.

Historical Society to Mark Lincoln Birthday

The children of members of the Chicago Historical society have been invited to a reception on Thursday morning, Feb. 12, Lincoln's birthday, from 10 to 12 o'clock. Addison G. Proctor, who knew Abraham Lincoln, will speak on "The Real Lincoln" at 10 and at 11 o'clock.

THEATER

Miss Barrymore's afternoons in "The Second Mrs. Tanqueray" are so prosperous that an extra matinee is to be put into the final week of her engagement.

Mr. Jolson is reported as so near recovery that his return to "Big Boy" in New York is announced for Monday.

The New York cast of "The Show-Off" rounded out last year with last night's performance. All the signs for the Chicago cast are that it is for a real run.

Dallas Welford is to have in the Great Northern performances the comic part acted by George Hassell in the New York cast of "The Student Prince." The piece is by Lewis Beach, Roy Cropper, Miss Charlotte Granville, and Miss Olga Cook, who was named here Wednesday.

The actors over in Hull-House are to give "The Square Peg" its first Chicago hearing next Wednesday, repeating the play for three nights thereafter. The piece is by Lewis Beach, who wrote "The Goose Hangs High."

Chromatic.
Harry M. Snodgrass, for whom the radio has been a success, is to be in next week's bill in the Palace, whose wordman describes him as "the most dominant person in the amusements world at the moment."

Others in the bill will be George Jensen, who is nearly as popular in New York as Miss Katherine Cornell or Dudley Digges, and Miss Kitty Doner, who dances in long pants.

Herbert Stothart, one of the composers, will bring with him a celeste—an instrument of vibrant tones and little known in our American orchestras. The piece is by Lewis Beach, who wrote "The Goose Hangs High."

Which reminds me that it is nearly a week since I last heard the vibrant tones of a celeste in one of our American orchestras. Also, that music would have a hard time of it in this world if it were not for the press-agents.

Mr. Hopper's little rep-trope is doing better by "The Chocolate Soldier" than it did by the respective operetta of the three preceding weeks. The players give more attention to the scenes and the lines—which is a compliment when you compare the scenes and the lines they ignored in "The Mikado" and "Pinafore" with what they have to do and to say in this and the others are the same.

The libretto is Shaw's, of course, no sense; the German librettists took nothing from "Arms and the Man," save the good plot, and took nothing from the use of romantic operetta. They properly discarded the things that the richest satires have written for the theater. The satire is no longer alive or apposite; the war put an end to "Arms and the Man," and to most of Shaw's calculated fun about war and warriors.

There's nothing much in "The Chocolate Soldier" for Hopper; and what he has to do as the comic father in uniform is much like what he was doing in the long ago—in the days and nights of the "Beggars Student," of "Falke" of "Boccaccio," and of "Belman." Forrest Huff has been brought in for the titerole, which he sang in the Garrick run, in 1919, and the others are the others whom Hopper brought along with him.

The score stands up better than most things in kind after fifteen years; and the old crowd-folk-tune which Oscar Straus fashioned into "My Hero" remains what it ever has been—a good tune.

Report from those who went over to Hull-House last night to see the North Shore Theater Guild perform "Fashion; or, Life in New York" is that they are glad they went, that they saw a good show, and had a merry time. The relic will be acted again tonight.

Pay Increase Plan Spurned by Teachers

Refuse Advance to Come from Building Fund.

Supt. William McAndrew's proposed new salary schedule, which would give the teaching force from 10 to 30 per cent increases, was tossed into the discard yesterday by 1,500 members of the Chicago Teachers' federation at a mass meeting in the Studebaker theater.

In a statement adopted unanimously by the meeting the teachers made it clear that they did not favor any increase in the tax rate to meet the proposed increase, as recommended by the superintendent. They further took the stand that they did not want any raise that might come from transferring money from the building fund, as advocated by several board members, to meet the new schedule.

Finally they demanded of the board of education that it take steps to co-operate with the teachers' organizations by exercising its legal right and that the assessment of taxable property is made according to law.

It is on this measure that the teachers are willing to accept a salary increase, they say, and not by increasing the tax rate or taking part of the building fund.

The meeting's statement in part follows: "The teachers of Chicago know that there can be no increase in teachers' salaries at the present time without increasing the tax rate for the educational fund."

"The teachers cooperated with the board of education and the citizens in the campaign in November, 1923, to secure a favorable vote of the people on the proposition to increase the tax rate for the building fund in order to provide a seat in the schools for every child. We insist that faith be kept with the public and that the increase in the building fund be used for the purpose for which the people voted."

"We resent any attempt to pit the teachers of Chicago against the children by making them appear willing to benefit themselves at the expense of the children."

The meeting criticized Supt. McAndrew's recommendation to curtail penny lunches and bath towels for children and to decrease the cost of construction. The legislature has made this a position before the public they do not deserve.

Several school officials have been considering the feasibility of taking \$100,000 from the building fund to meet the salary measures proposed by the superintendent. By increasing school room membership, platooning schools, and increasing the cost of construction, school trustees believe this amount might be saved. It would be necessary to have the state legislature take action to move the building and educational funds, which are now separate.

Cecil De Mille Forms \$10,000,000 Corporation

New York, Feb. 5.—[Special.]—Cecil De Mille is to be the producing head of a new concern which will be known as the Cinema Corporation of America. Incorporation papers have been filed in Delaware and provide for a capitalization of \$10,000,000. Mr. De Mille's new association is with the Producers' Distributing corporation as vice president in charge of production.

Mr. Holmes Gives Final Lectures in 1925 Series

The fifth and final lecture in Burton Holmes' present series in Orchestra hall is named "Along the Riviera," and brings to a colorful finish his new studies in Italy, the Alps, and on the shores of the Mediterranean. He gave the new lecture Wednesday night, and he will repeat it tonight and tomorrow afternoon.

Society Hears and Heeds 'Baroness' Plea for Refugees

By PANDORA.

That spacious and charming picture gallery of the Potter Palmer has given hospitality to a speaker for some time past, and the Baroness Olga Wrangel, who spoke there to a fashionable audience yesterday afternoon in behalf of the Russian refugees in Poland, Bulgaria, and Roumania, is a woman of words and with no attempt at stately, she told the story of the White army, which her husband, Baron Wrangel, commanded, as a forlorn hope and a large portion of which was evacuated of that fatal country. This evacuation of 150,000 persons from the Crimea he considered his greatest military achievement.

The baroness stood in front of one of a pair of tall Italian marble pillars that flank the charming portrait of Mrs. Palmer that Glynn Philpot painted when he was last here two years ago. In appearance she is most distinguished. Her hair is drawn straight back from her low forehead. She has heavily dark eyes, a slender, petite figure, and a gentle manner. It is no surprise for one not accustomed to speaking in public to come to a strange country to ask for help in a language not your own, from a people not your own. Arthur Aldis introduced the baroness with a few brief words, and Mrs. Nelson Morris made a strong appeal for contributions to a fund that is devoted to the care of the large number of tubercular refugees who are contracted the disease because of the hardships they have endured. Their desire is to get well and to return to Russia in time to help that country in its reconstruction.

Among those present were Mrs. Stanley Field, Mrs. John J. Mitchell, Mrs. Joseph T. Rogers, Mrs. William E. Hall, Miss Mabel Linn, Mrs. R. R. McCormick, Mrs. Watson Blair, Mrs. Robert Gregory, Mr. and Mrs. William Prescott Hunt, Miss Marie J. Roetz, Mrs. Charles L. Strobel, Mrs. E. W. Hunter, Mrs. B. C. MacAvoy, Mrs. Kellogg Fairbank, Mrs. Charles B. Pike, Mr. and Mrs. Aldis Browne, Mrs. James W. Morrison, Miss Mary Baker, Mrs. Cantacuzene, Mrs. Barrett, Wendell, Mr. and Mrs. Sisson Thompson, Mrs. Jacob Baur, Mr. and Mrs. Albert S. Gardner, Russell Tyson, William B. McCuller, Col. George Voedvov, Col. C. E. Faunberg, William M. McKee, Solida Fourch, Henry Channon, and Theodore Shaw.

Day's News in Society

From Palm Beach comes word of additions to the popular Everglades club—that estate organization, which with its numerous cottages seems to be a Florida Mecca. William J. Chalmers and Vincent Bendis were recently made members as also were Mr. and Mrs. B. E. Sumner, Mrs. James E. Baum, who is visiting Mrs. Frank Wilhelm, was made a lady associate this week. The John F. Jelke Jr.'s are at the Everglades, accompanied by John F. Jelke Jr.

Mrs. George A. McKinnock attended a large dinner at Col. Anthony R. Kauer's Wednesday evening, and Miss Mabel McCormick dined the same evening at the residence of Joseph R. Honard Palmer, who is at Saratoga with Princess Cantacuzene, made a visit to Palm Beach this week as the guest of S. Davies Warfield, president of the Seaboard Air Line, who had invited guests made the first trip into Palm Beach over the new railroad.

Mr. and Mrs. Clyde Bailey, who are cruising in the Keys on their yacht, "Elsie," have Mr. and Mrs. William Louis Koehne as their guests. Mr. and Mrs. George Rasmussen have been visiting Mrs. Frank Wilhelm, and expect to go in May to look over the building situation and confer with their architect about erecting a residence.

Mrs. Frederick Dorsey Montgomery and Mrs. James Randon Montgomery of 221 East Pearson street will entertain at a tea on Monday afternoon from 3 to 6 o'clock for Mrs. Frederick Montgomery Jr., who has recently returned with Mr. Montgomery from their honeymoon in Florida. The young Montgomerys have taken an apartment at 2912 Pine Grove avenue, where Mr. Dorsey is of 4630 South Woodlawn avenue are in Pinehurst, N.C. for the remainder of the winter season. They will not return until May.

Mr. and Mrs. John Stuart, who came to win from Winnetka to their debutante daughter, Joan, might enjoy more conversation the numerous and parties have returned to their home.

Mrs. Winfield Scott Linn of 15115 Dearborn parkway is in New York City with her mother while business requires Mr. Linn's presence in Cuba. Mr. Linn is expected to return in about two weeks.

Mr. and Mrs. James Otis Hinkley of Lake Forest are in New York preparing to sailing on Sunday for a four month trip abroad.

WEDDING

The marriage of Miss Gladys Emerson, daughter of Mr. and Mrs. Jay Emerson of Chicago, to James William MacQuigg Jr., son of James W. MacQueen of Birmingham, Ala., took place at 7:30 o'clock last evening at St. Paul's Episcopal church, the Rev. George H. Thomas officiating. Dinner at 10 o'clock at the Shore Country club followed the ceremony. Miss Lucy Hale of Evanston was maid of honor, and Miss Ruth Nelson of Glenview, Miss Charlotte B. Buckham of St. Louis, Miss Edith Richards of Valparaiso, Ind., and Miss Dorothy Middleton of Chicago were bridesmaids. James W. MacQueen was best man for his son, Mr. Warren M. Emerson, Jr. W. H. Frazee's new Matrimonial Service of Birmingham, Mark T. Phipps of Nor Lake, Ore., and Philip Edwards of Birmingham, Ala., were officiating. Mr. and Mrs. MacQuigg will reside in Chicago for a time, after which they will live in Birmingham.

Supper Bridge Party. The Country club of Evanston announced a supper bridge party for 7 o'clock this evening.

Tau Chi Beta Dance. The Tau Chi Beta society will give its annual dance at the Garfield hotel, Saturday this evening.

ANSWER TO WHAT'S WRONG HERE

Do your manuevering in the privacy of your own room. Never in public.

WINNIE WINKLE, THE BREADWINNER: Reflections

Here's Your Chance, Men, to Prove You Can Take a Joke

By DORIS BLAKE.

"Why do men cling to their old fashioned ideas?" asks Milla. "Why will they say the things that recall shades of our grandmothers, and not us at all?"

"One of my darling's favorite little jokes, when I run up to put my hat on at his invitation to go out, is to seat himself disconsolately, drag out his pipe, and say, 'Well, I have a half hour now for a quiet smoke.'"

"The fact is, when it comes to getting dressed to go somewhere, I am ready in quicker time than it takes him to fill a pipe and drink before the glass. In years gone by, when woman had to pin on a curled fringe and all that on with four or five hats, arrange the mantel at a correct angle over a figure that required fifteen minutes for correct pullings, man may have had to resign himself to wait. Today things are different. And man's irritating little joke needs remodeling."

Even in the old days the joke was not a merry one. In addition to the complications of her more complicated dress, grandma was kept from her own toilet by duties attendant upon the abruptions of her children, or last little mendings for the man of the house. It might also have been that she was participating in the famous collar button search, incidents of household detail not unfamiliar to our modern day, if the man stops a moment to think about it, and undoubtedly the reason for Milla's protest at the untimely savor of father's maddening joke.

"The joke is so stale, so flat and, unprobable, so long ago it lost its flavor that I think," writes Milla, "you might serve us women a good turn by calling their attention to it." Gentlemen, your attention is hereby called.

You'd better rule out of your vocabulary, if there is a woman within earshot who wish to please, such a question as, "Are you nearly ready, dear?" She knows what you want to say and lack the courage, is, "Hurry up, for heaven's sake!" The subtle humor of it goes amiss, not because the Milla lacks a sense of humor but because the effect is to work them into a nervous flurry, which delays appearance ten minutes more.

"What," a woman asks, "is the use of saying, 'Are you ready?' Or of shouting it, which happens from the halls of some of our best homes? If she is ready, she would be there beside you, asking if you had turned all the lights out."

DORIS BLAKE ANSWERS

Just Assert Yourself. "Dear Miss Blake: I met a girl three months ago and I care for her very much. She doesn't seem to realize how much I love her for she is always knocking me and making me feel badly. I am 19 and she is 18. How can I convince her that I am not fooling with her? I cannot think of losing her and I wish you would help me win her. RALPH."

Ralph, I think you must enjoy being treated badly when you come back for more knocks. I feel sure she would respect you if you were to stick up for your rights, son, but never will do so if you will allow her to act toward you as she has been doing. After all, Ralph, there are many other nice girls to be had, so why feel you must stand for such treatment for this one.

Needs Quick Action. "Dear Miss Blake: I am a young man of 19 and in love with a girl a

ENGAGED

Miss Kathryn Florence Nelligan. (Root Studio Photo.)

Announcement is made by Mr. and Mrs. Charles L. Nelligan of 646 North Lockwood avenue of the engagement of their daughter, Kathryn Florence, to Vincent James La Mantia, son of Mr. and Mrs. Joseph La Mantia of 928 Latrobe avenue.

years younger. I have known this girl for two years. I am not on speaking terms with her at present because I asked her out one night and she told me she promised her mother she would not go out with boys until she was 18. Unprobable, so long ago it lost its flavor that I think," writes Milla, "you might serve us women a good turn by calling their attention to it."

Gentlemen, your attention is hereby called. You'd better rule out of your vocabulary, if there is a woman within earshot who wish to please, such a question as, "Are you nearly ready, dear?" She knows what you want to say and lack the courage, is, "Hurry up, for heaven's sake!" The subtle humor of it goes amiss, not because the Milla lacks a sense of humor but because the effect is to work them into a nervous flurry, which delays appearance ten minutes more.

GOOPS!

A Daily Lesson in Manners for Children—BY GELETT BURGESS

CLEAN FINGER NAILS. I asked a doctor, "Sir, what ails this little fellow's finger nails?" The doctor answered, "If you please, He has the noscrubdirt disease." "Can nothing cure him, sir?" I cried. "No, Goops are hopeless!" he replied.

Needs Quick Action. "Dear Miss Blake: I am a young man of 19 and in love with a girl a

WASHINGTON SOCIETY

Washington, D. C., Feb. 5.—[Special.]—The President and Mrs. Coolidge were hosts at a reception tonight in honor of the Congress of the United States. This is the third of the state receptions given annually at the White House. Receiving with the President and Mrs. Coolidge were the speaker of the house, Mr. Clegg, and Mrs. Clegg. Mrs. William M. Butler, wife of Senator Butler of Massachusetts, and Mrs. Jesse H. Metcalf, wife of Senator Metcalf of Rhode Island, received this afternoon from 4 to 6 o'clock in the apartment of Senator and Mrs. Butler at the New Willard. Mrs. Frank W. Stearns, Mrs. George Wharton Pepper, Mrs. Vernon Kellogg, Mrs. William Bruce, Mrs. Arthur Capper, and Mrs. Porter H. Dale assisted at the table.

Mrs. Wilbur J. Carr had a company of twelve at luncheon today in compliment to her guest, Mrs. William Pringle of Duluth, and Mrs. George Bagley of Minneapolis, who is staying at the Shoreham.

College Club Tea.

Mrs. N. Raymond Clark and Mrs. Burns O. Sippy will hostesses at a tea at the College club from 4 to 5:30 o'clock this afternoon. At 8 o'clock Norman Angell will give an address on "British New Experiment." Miss Della Conger and Miss Sarah M. Campbell will serve as hostesses for the lecture.

Interfraternity Dinner.

The Interfraternity association of Chicago will hold its eighth annual dinner in the ballroom of the Drake at 7 o'clock on Wednesday evening, Feb. 11.

WHAT'S WRONG HERE?

NEW YORK SOCIETY

New York, Feb. 5.—[Special.]—Mr. and Mrs. Philip A. S. Franklin of 11 East 66th street, announce the engagement of their daughter, Miss Elizabeth Maryman Franklin, to Roland Palmedo. Miss Franklin, who made her debut a year ago at her home following her presentation at court in England a few months earlier, is a member of the Junior League. Her father is president of the International Mercantile Marine.

Mrs. W. K. Vanderbilt II has arrived in Palm Beach to join the Misses Consuelo and Muriel Vanderbilt, who arrived Monday.

Mrs. Henry P. Davidson, accompanied by Miss Frances Davidson, will sail on Feb. 14 for Europe.

Mrs. Russell S. Carter gave a luncheon for ten guests at Sherry's.

MEN'S FASHIONS

By A. T. GALLO.

Sunday Evening Dress.

NEW YORK.—[Special Correspondence.]—The problem of what to wear on Sunday evenings has been bothering one of our readers. In his wanderings around to the opera and other formal affairs he has seen some cutaways and tuxedos, and even some full dress outfits, and he wants to know which is the most correct.

We hasten to set his mind, and that of others faced with the same problem, at ease. The cutaway coat and the striped trousers that usually go with it, although strictly a morning costume, are, when worn on Sunday, often carried over to the evening. But on Sundays only. Often a man will be out in his cutaway on a Sunday afternoon, at church, or a concert, or making calls, and it is possible he will be going directly to supper from his afternoon affair. In this case the cutaway is excusable, even though it is after nightfall.

But if the Sunday evening affair is something of formality, to which a man is invited, or to which he is going to a dinner party, or to a public Sunday evening occasion, such as a concert or lecture, the cutaway is sufficiently formal and more usual than the tuxedo, if one dresses at all in more formal attire than a week suit.

Reading in French.

The Alliance Francaise announces the sixth of a series of French readings for 4:15 o'clock this afternoon. Madame A. O. Postelwait will read "Quelques Choses de Zola." Marius Jean will give a talk at 12 o'clock tomorrow at the Alliance on "Le Peintre, Paul Cezanne."

Friendly Aid Meeting.

The Friendly Aid society will hold its regular February meeting at the Hyde Park hotel at 10:30 o'clock this morning.

PATTERNS BY CLOTILDE

(Registered U. S. Patent Office.)

WOMAN'S AND MISS' DRESS.

The long waisted body of this dress has a deep V shaped opening in front which is underlaid and rolled with the collar-forming revers. There is an inset vestee. The attached one piece skirt is slightly gathered at the top and laid in box plaits each side of the center front.

The pattern, 2338, comes in sizes 16 years and 36, 38, 40, 42, and 44 inches bust measure. Size 36 requires 3 1/2 yards of 36 inch material with 1/4 yard of 32 inch contrasting.

SPECIAL MAT. LINCOLN'S BIRTHDAY.

It's a Coat—This Gray Kasha—Trimmed in Satin

by Corinne Lowe

NEW YORK.—[Special Correspondence.]—Woman's Intuition has long been the weapon with which she triumphed over poor blundering man. In vain might he decipher a time table which looked to her like a cuneiform tablet. With no hope of impressing her by the superiority of his endowment he takes apart a wayward car and puts it together again. Always she is there to remind him: "What's that? I've got my intuition."

And now apparently we are all bent upon giving the other woman exercise in this legendary gift. How? Simply by wearing a garment which is so noncommittal, so mystifying in its general effect that the average woman—to say nothing of the obtuse male—can decide whether it be coat or coat frock by only one method. It is intuition.

In order to avoid any undue exercise of this innate quality we hasten it easy that today's sketch represents a coat. It was seen worn by a fashionable woman in Park avenue, and although it gives a first impression of a coat frock, a conscientious research reveals the fact that it is fastened with clasps all the way down one side.

Otherwise this coat represents some of the most pronounced midseason tendencies. Made of gray kasha, it is trimmed with black satin. Two side flounces of this latter material are the single disputation of a straight line effect. The narrow bands of black satin on the sleeves are exceedingly chic. And even more which is the scarf collar with its bands of black satin.

BILLION ADDED TO OIL SHARES' MARKET VALUE

BY O. A. MATHER.

The remarkable improvement in the petroleum industry in the last few weeks was translated into stock statistics yesterday. It now is evident that the condition of overproduction has been remedied as the result of the increasing consumption and declining output. The result has been an advance in prices of both crude and refined products, and a remarkable appreciation in the market value of oil company shares.

The aggregate gain in the market values of listed oil stocks since Jan. 1 is around \$1,000,000,000, of which around \$400,000,000 has occurred in ten active issues. Already this year there have been four general advances in gasoline prices, and practically all grades of crude oil have been advanced at least 25 cents a barrel, and a few have been raised several times that amount.

Chief Drop in Texas.

The daily average gross crude oil production of the United States decreased 41,000 barrels for the week ended Jan. 31, totaling 1,953,300, according to the weekly summary of the American Petroleum Institute. The falling off occurred principally in east central Texas, where the new Wortham field is. The daily average production of California was 1,354,000 barrels, a decrease of 47,000 barrels. California production was 556,000 barrels, a decrease of 2,100 barrels.

Inventories of crude and refined oil increased only 134,877 barrels in December, according to the bureau of mines. This small increase was despite the fact that gasoline production was the largest on record. In December, 1933, inventories increased 6,744,184 barrels. Additions to gasoline stocks in December were 46,345,529 gallons, compared with 95,533,073 gallons in December, 1933.

Gold Reserves Decrease.
How little effect the outflow of American gold to other countries is having on domestic credit conditions was shown yesterday. The report of the federal reserve system showed a decline of \$15,440,000 in gold reserves for the last week, which made an aggregate decline of \$125,360,000 since November, when gold exports in quantity began.

But these gold exports have been largely offset by the return flow to the reserve banks since the holidays. The reserve system's ratio of reserve to liabilities now stands at 77.4 per cent, which is much above the December average of 75.4 per cent, and above the preceding week. The New York Reserve bank made no change in its rediscount rate yesterday and call money eased to 1 per cent.

Better Credit Demand.
The reserve system report shows a better demand for credit consequent to the expanding trade. Loans increased \$48,675,000, government securities declined \$5,248,000, and earnings assets expanded \$45,700,000. Deposits advanced \$32,000,000, with bank money reserves credits and other deposits increasing \$21,901,000 and \$3,817,000, respectively, and government deposits declining \$22,065,000. Net circulation increased \$5,074,000.

Although the outflow of gold is expected to continue, principally as the result of prospective foreign loans approximating \$100,000,000, this movement will be minimized by the action of Japan in shipping gold to this country in order to stabilize the yen exchange. While it is not known how far Japan intends to carry this program, American bankers are advised that the consignments probably will continue until next summer.

WHEAT SLIMPS ON REPORTS OF FEDERAL INQUIRY

BY CHARLES MICHAELS.

A crash in wheat prices in leading markets, ranging from 6 1/2 to 8 cents, with Argentina leading, yesterday came as a response to the introduction of a resolution into congress asking for an investigation of the advance in prices.

All the wheat markets in the world were under pressure from all classes of sellers, and the finish was nearly at the lowest point of the day. Chicago was off 2 1/2 to 6 1/2 cents. The close was at \$1.92 1/2 to \$1.92 3/4 for May delivery, a net loss of 6 1/2 cents for the day.

At the inside prices were off 10 cents from Wednesday's high, and 14 cents from the top point of a week ago. Argentina was down 10 cents from the high of a week ago. Winnipeg has lost almost 20 cents, although the price there for May delivery still holds slightly above \$2.00, with a decline of 7 1/2 to 8 cents for the day. In Liverpool wheat has declined 16 1/2 cents in a week.

Four Drops Fifty Cents.
Flour prices have lost the 50 cents made last week when wheat prices were working skyward and family brands of spring wheat flours were \$1.10 to the retail trader with hard winters at \$1.00 and white rye at \$0.70. Millers said flour buyers were about as badly scared over the decline as they were over the advance of a week ago.

With an effort made in congress to investigate the wheat advance, there has come a lack of confidence on the part of the outside public and a complete reversal in their speculative sentiment. A week ago every one was talking about the advance in wheat and there was a rush by the public with \$25 to \$100, expecting to get rich all at once. They knew nothing about conditions. Now they have sold out, some with profits, others with losses.

Call Advance Too Rapid.
Trade leaders say prices advanced too fast and shut off the exportable demand with the natural result of a reaction fully as drastic as was the advance.

There is the most striking situation in the wheat trade that has ever confronted the people of the United States. Now congress is asked to investigate the advance in prices to \$2, while at the same time the farm bloc in congress is industriously working for the passage of bills for farm relief and President Coolidge favors this movement.

Argentina and Australia are shipping wheat to consuming countries as fast as boats can be loaded. Argentina's estimate of exports of wheat for the week are 7,000,000 bushels, and India's nearly 1,000,000 bushels. Cables from Australia said that boats had been engaged to ship around 75,000,000 bushels of wheat and recent reports from there have claimed that 70 per cent of their 128,000,000 bushels of exportable surplus has already been sold, a large part of it going to the orient. Argentina has sold 40 per cent of its surplus.

Refutes Manipulation Charges.
Dr. J. W. T. Duval, supervisor of the grain futures administration, in charge of trading on the grain exchanges, says there is no foundation for a charge of manipulation in the Chicago market.

While there have been large lines sold, he says, there has been nothing to indicate any manipulation. He says the market has been genuine, although it is fundamentally speculative.

Corn Weakens with Wheat.
Weakness in wheat was the main depressing influence in corn, which closed 1/2 cent lower, with May at \$1.25 1/2 to \$1.25 3/4 and September at \$1.25 1/2 to \$1.25 3/4. Commission houses were buyers in the way down. Eastern demand for cash grain was slow, but with mild weather over the west many traders are looking for a decrease in the movement from the country.

A decline of 1/2 cent in oats for the day was largely in sympathy with wheat, and on scattered commission grain and on scattered commission house selling. Eastern demand continues low.

Seaboard Buys Rye.
Buying of rye on a liberal scale by cash interests and seaboard exporters allied to rally the market to any extent and the finish was 5 1/2 to 6 cents lower. There were further reports of Russia being after rye, with requests for offers of 75,000 bu for immediate shipment. Norway and Germany took 150,000 bu for deferred shipment.

Decline in grain and selling of May and June, credited to leading packers, made lower range, and close 10 1/2 to 11 1/2, with bellies 2 1/2 to 3 cents lower, while ribs were unchanged to 5 cents higher. Deliveries in February contracts were 50,000 lbs and. Prices follow:

Fear Collins Will Die While Shaft Is Being Dug in New Effort to Free Him from Sand Cave

[Pacific and Atlantic Photo.]

ABANDON HOPE OF RESCUING COLLINS THROUGH MOUTH OF CAVE. Photo was taken at cavern near Cave City, Ky., before rescue parties gave up attempts to free Floyd Collins' foot, and drag him to safety. Yesterday the cave was sealed, and a shaft started down to where the trapped explorer is believed to be. (Story on page 1.)

[Pacific and Atlantic Photo.]

JOINS THE CHORUS. Miss Evelyn Gardiner, Boston society girl, enters musical comedy. (Story on page 1.)

[Pacific and Atlantic Photo.]

THINKS SON DEAD. Lee Collins, who has lost hope of saving cave captive. (Story on page 1.)

[Underwood & Underwood Photo.]

DID HIS BEST. John Gerald, friend of Collins, has worked strenuously at rescue. (Story on page 1.)

[Wallinger Photo.]

TO WED. Frank J. Loesch, Chicago lawyer, and Mrs. May B. Bauscher are to be married in the east. (Story on page 3.)

[TRIBUNE Photo.]

VOLUME LX
RE
MITCHELL
RIGHT AND
AT AIR INC
Defies Superior
Warns of Fu
BY ARTHUR SEARS
Washington, D. C., Feb. 5. (P. A. M.)—More sensational news today in the affair of Brig. Gen. Mitchell, assistant chief of the army air service, and his charges of the inefficiency of the war and navy departments in the development of military aviation. With the doughy officer defiantly hurling his accusations right and left at the highest officials of the two departments of national defense, it begins to look as if the general will be driven from the army and navy departments to the accompaniment of the President's cabinet. Sensations of the day were:
1. Gen. Mitchell made reply to Secretary of War which he described the war as being "quite impossible handling or administering in an efficient manner."
2. He accused the navy of staging tests of aircraft, tanks on warships under difficult as to endanger the army aviators and possibility of success of which would establish the of capital ships.
3. Possibility that Gen. Mitchell may be reduced to the rank of colonel on March when his four year term as chief of the air service, and rank of brigadier general, will expire.
4. Another charge against Gen. Mitchell was that he had made a confidential report to Secretary of War on the inadequacy of our air in the Pacific.
5. Even if not courtmartialed, Gen. Mitchell's status as a colonel on March will reduce him to the rank of major general, and the amenities prohibited of one department by the another department.
6. President Coolidge does not approve of Gen. Mitchell's attitude toward the army and navy. He is the widest latitude in the history of the department, and the amenities prohibited of one department by the another department.
7. The White House said President Coolidge had not approved of Gen. Mitchell and the representative of the office of the general that he had made a confidential report to Secretary of War on the inadequacy of our air in the Pacific.
8. In the face of the risk of reappointment as assistant army air service and of being possibly reduced to the rank of even more severe charges of insubordination, Gen. Mitchell, in reply to questions by members of the house at a hearing, amplified his letter to the president in no uncertain terms.
Catalogue of Weakness
In support of his contentions Gen. Mitchell gave the following statements as:
"No American battleship is in the last war, not even the Japanese."
"At present there are no service ships that could stand up to an enemy."
"The United States ranks not above fifth as an air power, Japan, France, and Germany are superior."
"The air service is the preeminent fighting force of the future."
Says Solons Are Wrong
"The conception of an air service is better understood by a committee than by either of the war departments."
"Spurs, swords, high heels to undress every time an airplane."
These were typical of the "flying general" as he is called.
(Continued on page 10.)
